\$10,000,000 A Year Wasted On Trusses

Wrong to Buy Anything for Rupture Without Getting Sixty Days Trial

A conservative estimate shows that nearly ten millions dollars a year—in this country alone—is practically wasted on worthless rupture appliances—all because people trust to a mere try-on system instead of making a thorough test.

Away With Leg-Strap and Spring Trusses

So far as we know, our guaranteed rupture holder is the only thing of any kind for rupture that you can get on 60 days trial—the only thing we know of good enough to stand such a long and thorough test. It's the famous **Cluthe Automatic Massaging Truss**—made on an absolute new principle—has 18 patented features. Self-adjusting. Does away with the misery of wearing belts, leg-straps and springs. Guaranteed to hold at all times—including when you are working, taking a bath, etc. Has cured in case after case that seemed hopeless.

Write for Free Book of Advice—Cloth-bound, 104 pages. Explains the dangers of operation. Shows just what's wrong with elastic and spring trusses, and why druggists should no more be allowed to fit trusses than to perform operations. Exposes the humbugs—shows how old-fashioned worthless trusses are sold under false and misleading names. Tells all about the care and attention we give you. Endorsements from over 5000 people, including physicians. Write to-day—find out how you can prove every word we say by making a 60 day test without risking a penny. **Box 771—Cluthe Co., 125 E. 23rd St., New York City**
