

**“The Women-Folks Praise the
BEATRICE
CREAM SEPARATOR
For Its Easy Cleaning”**

SAYS FARMER ONSWON---

The great bugaboo with most separators is cleaning the bowl. The Centrifugal Washing Device does the trick for the Beatrice---washes, rinses, dries and aerates *in two minutes*.

One of the many good reasons for preferring the Beatrice is that it's a remarkably simple machine---very few parts---all of them easy to get at.

The makers have wisely constructed the Beatrice so it does not give trouble. When you take home the Beatrice you are not taking home a machine to work over. It is ready

for duty, night and morning for years to come.

But dependability is just one thing. Don't overlook the other requisites.

The Beatrice gets all the cream whether milk is warm or cold. It turns as easy as any separator. And it's no job at all to wash up and clean up when you are through.

Buy your separator with your eyes open. Don't buy any machine till you know the Beatrice. My word for it, it will save you money and worry.

The best at any price. Write us for catalog and name of dealer nearest you.
