

Health Restored By Radium

The wonderful curative power of Radium has been known for years. However, the benefits of this precious health-giving substance have in the past been only within the means of persons of wealth.

Since the invention of Degnen's Radio-Active Solar Pad, any man or woman, poor or rich, can afford this treatment which offers so much relief from suffering and disease.

Degnen's Radio-Active Solar Pad is worn next to the body day and night. It pours a constant stream of radio-active energy into the system while you work, play or sleep, helping to build up weakened nerves and tissues to a strong, healthy condition. It creates a vigorous circulation of blood, thus removing congestion, which is the real cause of most diseases.

To prove just what this remarkable treatment can do for you, we will send our appliance on trial with the understanding that we will not charge you a cent if it fails to give satisfactory results. This offer is open to any person who has pain of any kind, nerve weakness, high blood pressure, stomach, kidney or liver complaint, bladder trouble, or disease of the lungs or heart.

No matter what your ailment or how long you have had it we will gladly let you try the appliance at our risk. Write today for free literature giving complete information. Radium Appliance Co., 678 Bradbury Bldg., Los Angeles, Calif.

Rupture Kills 7,000 Annually

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached.

Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Send your name today to PLAPAO CO., Block 1338, St. Louis, Mo., for FREE trial Plapao and the information necessary.

Yet France Wants More

A Washington dispatch from the Kansas City Star, dated Oct. 3, says:

"Just as certain as hell is hot, Europe, pursuing her present course, is heading steadily but surely toward another great war and a final smash," is the picturesque fashion in which Senator T. H. Caraway of Arkansas epitomized his impressions of Europe.

Just returned from a two months' visit of all the principal powers of Central Europe as a delegate to the interparliamentary union congress at Vienna, the Arkansas senator drew a gloomy picture of steady decay in Europe. He described continental Europe as a seething mass of hatred, with only the restraining memory and experience of the last war holding many of the powers from flying at each other's throats again.

STILL AN ADVOCATE OF LEAGUE

An advocate of the League of Nations before he went over, Senator Caraway described the league as the most sane thing in Europe and its chief hope. He advocates the United States joining it still, on conditions, asserting that with out America's counsels to help steady the situation in Europe, another great war is sure to come within a few years, into which this country will almost certainly be drawn.

Senator Caraway asserted that the nine other members of congress, who attended the Vienna meeting with him—several of them ardent anti-leaguers—all were returning convinced that the United States must take a more positive part and position in the European crisis.

Senator Spencer of Missouri was in the party, but will not return until the last of the week.

"The chief occupation of Europe right now is hating each other," said Senator Caraway. "The great war has inflamed national animosities so that there are a hundred causes for war greater and more dangerous than the situation from which the last war sprang. Only the restraining experience and memory of that war has prevented another holocaust to date, and the situation is far worse than a year ago, and growing continually worse.

"Italy hates France as he never hated Austria; France hates England as she never did Germany. The 'little entente' spends most of its time hating each other. The general impression I got is that France has gone mad—on militarism. They're talking now of their destiny—meaning keeping an army big enough to overawe any movement not dictated by France in Europe and Asia. She is rattling the saber as continuously as the kaiser ever did. I fully sympathize with her demand that Germany shall pay to the limit of her ability, but France really desires the destruction of Germany.

"I came home convinced that France doesn't intend to pay her debt to us; has no intention of paying. The diplomats may talk evasively, but if you get down and talk with the French people you get a national viewpoint—that they don't owe anything; that they already have paid in blood sufficiently and we still owe them more, instead of France owing us. They feel now they won the war; they are not grateful for our contribution to victory and don't recognize it.

"They have the devastated regions about three-fourths restored. The homes and the barns are being built, twice as good as they were before the war and the bill is charged up against Germany. The average farmhouse being built is much better than the home the American farmer lives in. In making his claim of losses, no Frenchman has under-

estimated it, but generally doubled the actual damage. The government has allowed them, has issued bonds and is desperately in need of German money to meet them. On the whole, though, France showed more evidence of prosperity than any country I visited."

Senator Caraway described the situation of Austria as really desperate; a patient dying, surrounded on all sides by vultures waiting to pick the body.

"They day I left Vienna there was less than three day's food on hand," he said. "They live from hand to mouth, not knowing the day when the collapse will come. Italy, Hungary, Czecho-Slovakia and Jugo Slavia all keep armies massed near the border, ready to rush in and start grabbing the minute the patient dies. Each nation is so jealous of the other it blocks any substantial effort to relieve Austria for fear it may give a rival a better opportunity.

"Cut off from factories and farms, there isn't enough left of Austria to support the 6 million people. Printing press currency has staved off the collapse. But fiat money is now the curse of the land. I bought 1,650,000 kronen one day while there for \$20. How can Europe buy our cotton and wheat with such depreciated currency?

"The people generally in Austria are half starved all the time and now are hopeless. The only way for trade to revive is for custom barriers to be leveled. Yet you can't travel two hours in any direction without bumping into a tariff wall. Each nation is warring industrially on the other. And incidentally, I might say I heard everywhere in Europe that America's example in setting up a sky high protective tariff would only make matters worse all around."

Senator Caraway believes that the rival ambitions over Austria is very apt to be the spark to touch off a new conflict, provided the Turkish affair can be bridged over without kindling a new conflict. The opinion in Europe, the senator said, was that France was playing Turkey off against the little entente for her own advantage and the future in the near East lay in what policy France ultimately adopted, rather than with England.

"I'm of Irish descent and frequently have been accused of being anti-British," said Senator Caraway, "but England today has the only sane policy in Europe."

"End Your Rheumatism

Like I Did Mine" — Says Pastor Reed's Wife Also Rid of Neuritis

Suffered Tortures For Years—Now Telling Good News To Others

"Don't Believe That Old Humbug About 'Uric Acid' Being the Cause of Rheumatism—It's Not So!"

Emphatically asserting that thousands of unfortunate sufferers have been led into taking wrong treatments under the old and false belief that "Uric Acid" causes rheumatism, Pastor H. W. Reed says:

"As do some of our highest medical authorities, I now know that 'Uric Acid' never did and never will cause rheumatism! But it took me many years to find out this truth. I learned how to get rid of my rheumatism and recover my health and strength, through reading 'The Inner Mysteries of Rheumatism,' a work written by an authority who has scientifically studied the cause and treatment of rheumatism for over twenty years. It was indeed a veritable revelation!

"I had suffered agony for years from rheumatism and associated disorders, and Mrs. Reed was tortured with the demon neuritis almost beyond endurance. We had read and talked so much about 'Uric Acid' that our minds seemed poisoned. But the 'Inner Mysteries of Rheumatism' made it all clear to us and now we are both free from the suffering and misery we endured so many years. I believe I was the hardest man in the world to convert! For me to discard the old 'Uric Acid' theory, and what I now know to be absolutely false, for the new, scientific understanding of the causes and cure of rheumatism, was like asking me to change my my religious beliefs! But I did change, and it was a fortunate day for me and mine when I did so."

NOTE: "The Inner Mysteries of Rheumatism" referred to above by Pastor Reed lays bare facts about rheumatism and its associated disorders overlooked by doctors and scientists for centuries past. It is a work that should be in the hands of every man or woman who has the slightest symptoms of rheumatism, neuritis, lumbago or gout. Anyone who sends name and address to H. P. Clearwater, 1272-H Street, Hallowell, Maine, will receive it by mail, postage paid and absolutely free. Send now, lest you forget the address! If not a sufferer, cut out this explanation and hand it to some afflicted friend.
