

FROM WASHINGTON.

WASHINGTON, Sept. 6.

The Secretary of War, writing to Gen. Smith, under date of September 3d, says: "Your dispatch of the 22d August, and enclosures, sufficiently exhibit the inadequacy of the force under your command to perform the duties which have been devolved upon you, in the present unhappy condition of Kansas, by the orders and instructions heretofore communicated. To meet this exigency, the President has directed the Governor of the Territory to complete the enlistment and organization of militia, as you will find fully set forth in the enclosed copy of a letter addressed to him by the Secretary of State; and the President has directed me to say to you, that you are authorized, from time to time, to make requisitions upon the Governor for such militia force as you may require, to enable you promptly and successfully to execute your orders, and suppress the insurrection against the government of the Territory of Kansas; and, under the circumstances heretofore set forth in your instructions, to give the requisite aid to officers of the civil government, who may be obstructed in the due execution of the law."

"Should you not be able to derive from the militia of Kansas an adequate force for these purposes, such additional number of militia as may be necessary, will be drawn from the States of Illinois and Kentucky, as shown in the requisition, a copy of which is enclosed. The views contained in your instructions to the officers commanding the troops, under the date of August 19th, are fully approved, and accorded so entirely with the purposes of the Executive, as to leave but little to add. In relation to the course which it is desired you should pursue, the position of the insurgents, as shown by your letter and its inclosures, is that of open rebellion against the laws and the constitutional authorities, with such manifestation of purpose as to spread devastation over the land, and as no longer justifies any further hesitation or indulgence. To you as well as every soldier, whose habitual feeling is to protect the citizens of his own country, and only to use his arms against the public enemy, it cannot be otherwise than deeply painful to be brought into conflict with any portion of his fellow-countrymen. But patriotism and humanity alike require that rebellion should be promptly crushed, and the peace and security of the good people of the Territory restored."

NEW YORK, Sept. 6.

A lengthy correspondence between the Department at Washington and the authorities in Kansas is published, together with instructions to Col. Geary, the newly appointed Governor, who was at St. Louis on the 4th inst., en route for the scene of disturbance.

The force of troops being inadequate to the exigency of the case, the Governor is ordered to enroll and organize the militia of the Territory; one division under Gen. Richardson, already in the field. Requisitions have been also made upon the Governors of Kentucky and Illinois, for two regiments of infantry, to be placed under the enrollment of Gen. Smith, to aid in suppressing insurrectionary combinations against the constitutional government of Kansas.

Secretary Marcy writes as follows to Gov. Geary:

DEPARTMENT OF STATE,
WASHINGTON CITY, Aug. 26.

SIR: The present condition of the Territory of Kansas, renders your duties as Governor, highly responsible and delicate. In instructions heretofore communicated to your predecessor in February last, in the Annual Message to Congress of the 24th of the previous December, and an order issued from the War Department, printed copies of which are herewith furnished, you will find the policy of the President fully presented. It is, first, to obtain order and quiet in the Territory of Kansas; and secondly, if disturbances do occur therein, to bring to punishment the offenders. Should the force which has been provided to obtain these objects prove insufficient, you will promptly make known the same to the President, that he may take such measures in regard thereto, as to him may seem to be demanded by the exigencies of the case. It is important that the President should be kept well informed as to the state of things in Kansas, and that the source of his information should be such as to insure its accuracy.

You are therefore directed by him to communicate constantly with this Department. Such facts as are deemed important to be early known here, you will cause to be transmitted by telegraph as well as by mail.

The President indulges a hope that by your energy, impartiality and discretion, the tranquility of the Territory will be restored, and the persons and property of our citizens protected.

[Signed] I am, sir, &c.,
WM. L. MARCY.

WASHINGTON, Sept. 2, 1856.

SIR: Reliable information having reached the President that armed and organized bodies of men, avowedly in rebellion against the Territorial Government, have concentrated such numbers as to require additional military forces for their dispersion, you will have the militia of the Territory completely enrolled and organized, to the end that they may, on short notice, be brought into the service of the United States. Upon the requisition of the commander of the Military Department in which Kansas is embraced,

you will furnish by companies or regiments, or brigades or divisions, such numbers as you from time to time may find, on his report to you, to be necessary for the suppression of all combinations to resist the laws of the United States, too powerful to be suppressed by the civil authorities; and for the maintenance of public order and civil government in the Territory.

[Signed] WM. L. MARCY.
To his Excellency, J. W. GEARY, Governor of Kansas Territory.

INCREASED COMPENSATION OF CONGRESSMEN.

The Senate passed a bill on Wednesday, fixing the compensation of members of Congress at \$2,500 per annum in addition to the mileage allowed by existing laws. This is an increase over the present *per diem* compensation of something more than 50 per cent. No one who knows the cost of living in Washington will deny that the present pay of members is inadequate. Its increase, therefore, is a simple act of justice; and we were gratified to see the bill pass without any party division.

The necessity for such a measure has been felt for years, but members have heretofore been restrained by the indisposition to act in a matter which seemed to involve their own interests. It will be remembered that it has been found necessary to increase the compensation of most of the officers and employees of the government, including the members of the cabinet and of the supreme court.

The same reason existed for a like course in regard to members of Congress; and, if we were not personally interested, we would suggest that exactly the same reason exists for saving the public printers from the loss they have sustained by the increased wages they have to pay to their two or three hundred agents in executing the public work, thereby operating as a heavy reduction on the prices fixed by law in 1852. At least, while justice is being done to all others, the public printers might be allowed to receive the amount decided by the court to be due them under the law of 1854.

But the fact that Congress refuses to do justice to the printers, will not prevent us from awarding to members proper commendation for the justice they are doing to others. We know that members are laboring under the most serious misapprehensions as to the heavy profits of the printers, and doubt not they suppose that the 20 per cent. claim, decided to be due to them, would make them rich. The fact is, that the printers have been paying most of the time since the law of 1854 passed, to their employees, a large increase on their wages; and they have done it cheerfully, because they are entitled to it.—*Washington Union*.

ANOTHER BRIDGE ACROSS THE OHIO.—Their exists no longer any doubt concerning the erection of a bridge across the Ohio between the cities of Cincinnati and Covington. All the stock has been paid in, and preparations are being made for the early commencement of this important structure. An agent of the company is now in this city authorized to purchase thirty thousand barrels of cement, that immense amount being necessary for the construction of the bridge piers. This is quite the largest order that has ever been received in Louisville at one time, and to fill it will tax the capacity even of Frank McFarley's mammoth works. The bridge will not, so it is said, interfere in the least with river navigation, as the arches are to be fully sixty feet above high water mark, thus allowing the tallest chimneys of boats to pass beneath it without the slightest trouble.—*Louisville Courier*, 30.

A dispatch from Washington states that intelligence has been received there of a very heavy defalcation on the part of a government officer, in California. He is said to be a prominent member of the Vigilance Committee.

A German working on the Court House in St. Louis, Thursday, was precipitated from the scaffolding down a descent of about thirty-five feet, and falling upon some iron bars, his skull was fractured in a most horrible manner.

The *Edgefield* (S. C.) *Advertiser* says that Mr. Wm. Greig, of Kalmia, in that district, has realized this year nearly \$4,000 from sales in the New York market of peaches, raised upon the sandhills of his farm.

In New York placards can be seen in all the principal streets, offering a free passage to Nicaragua, worth 150 to 250 acres of land, to such able-bodied young men as are desirous of joining the standard of Gen. Walker.

Every triumph over an inclination to do wrong, renders future conquest more easy; and strengthen the inclination to do right.

We hear very disastrous accounts of the destruction of the coming crops in the vicinity of Natchez, Miss., by the recent storms in the South. The cotton on many plantations has been entirely prostrated. One-fourth, one-third, nay, one-half, is freely spoken of as the amount of injury.

The Editor of the *Alexandria* (Miss.) *Gazette* recently saw a specimen of cigars made by machinery. They were perfect in form, though rather hard and tight. It is said that cigars can be made much cheaper by this method than by hand.

1856. FURNITURE. 1856. SCARRITT & MASON. FURNITURE & UPHOLSTERY.

DEALERS AND MANUFACTURERS.
