THE ELECTION.

The election in this Territory for members of he Legislature and a portion of the county offistook place on Tuesday last. In but few antics party lines of any kind were drawn. What issues there have been, principally were local. In this county, really there was no issue of importance, and the result has shown early that the people of Nemalia county are stored to keep aloof from party divisions and dissentions, which only serve to distract every effort for the common good of all. Univ of actions, feeling and sympathy is the only ale ground to secure prosperity, and more espendly is this applicable to new countries. The result for the Legislature in this county
