BROWNVILLE FERRY
Best Crossing
ON THE
Missouri River.
The Route from Brownville to Ft. Kearney, and from thence to California, is the nearest and most practicable.
FINNEY & CODINGTON,
ANNOUNCE to the Traveling Public that they have purchased the entire interest in the Ferry across the Missouri River at the City of Brownville, Nebraska, and open the Season with a new substantial and commodious Ferry Boat, run by Horse Power, which arrangement will secure certain passage at all times and in all kinds of weather. The Proprietors do not assert boastingly, or for the purpose of gaining custom merely, but are governed by facts, when they say this is the best crossing of the Missouri River in Nebraska, and when they say the route from Brownville to Fort Kearney and from thence to California is the nearest, for evidence they refer the reader to the map of the Country; and are warranted in saying it is the most practicable route by personal experience, as well as that of hundreds of others who have traveled it.—We claim therefor that this crossing and route holds out peculiarly favorable inducements to persons going to California, and solicit their patronage. Notwithstanding our superior arrangements for a safe and speedy crossing, and the general good order Ferries in Nebraska, all being regulated by Legislative enactment.
A skiff will be in readiness and a hand on the ground to run all hours of the night.
☞ Recollect that, with our facilities of Power, no kinds of weather will prevent our Boats from making regular trips at all hours.

AGENTS for Straub's Corn and Wheat Mill
At the "Queen of the South." This remarkable Mill has been kept secured to the inventor by caveat—recently, however, (June 27th, 1854.) Letters Patent for the United States have been granted, securing the invention for fourteen years. This Mill has sustained itself wherever it has been brought into competition with other Mills. It was run against the other make of Mills of our city, at the Ohio State Fair, in 1850, when it drew a diploma as the best Corn Mill, and was awarded a fine silver medal.
Of these Mills we manufacture five sizes for corn, and three expressly for grinding wheat flour.
The peculiar novelty of this Mill is, the under stone is the running stone, in all cases. There is no limit to the speed, and as speed is everything in grinding, it will out grind any upper grinder in the world.
Second'y: By this arrangement we are enabled to get grain into the Mill with a very small eye, consequently we grind nearer the centre, and of course with less power than any upper runner can be made.
Third'y: Our Mill takes any kind of grain without choking. We warrant against choking in any and all cases. This is a great vexation causing delay and trouble in all Mills where the upper stone is the runner. Of course, we mean small Mills, where the motion must be high to do much business.
Fourth'y: Our Mills never take injury by running empty—the under stone not touching the upper one, no injury can be done. This is an important advantage over all Mills where the upper stone is the runner.

Also a large assortment of Guns, Rifles and Pistols. Iron, Steel, Nails, &c., of the best brands: in a word, my stock is very complete, which, for its quality and price, I am determined to offer such inducements as will command a liberal share of trade from this and adjoining counties. My arrangements for importing and agencies for American Hard ware Manufacturers, together with a long experience in the general Hardware trade, enables me; not only to defy all competition, but has convinced me that the true principle of trade is cash sales and small profits.

MICHAEL McGEE,
Saddle and Harness Maker,
East side of Main, bet. Francis and Felix St.,
ST. JOSEPH, MO.
THANKFUL for past favors, begs leave to inform the public, that he has just returned from St. Louis with as fine an assortment of materials as has ever been purchased in that market.
His stock consists of a superior article of Skirting Harness, bridle leather, hog, calf, and sheep skins, fine goat morocco, and a surpassingly beautiful article of enameled leather of various hues.
He has every variety of saddle trees, from the real Mexicana and English, Beard's and Grimsley's patent, down to the common fall-back. He has on hand and will continue to keep saddles, saddle-bags, bridles, martingales, halters, collars, whips of every quality, whip-lashes, hames, traces, spurs, &c. Has gig, coach, buggy, Pennsylvania, yankee, cart and dray harness.
He has not now, nor will he keep any other than No. 1 workmen, and his instructions to them are neatness and strength. He, therefore, feels no hesitation in saying that his work will seldom be equaled, no where surpassed.
As small profits and quick sale, is his motto, he pledges himself to sell (considering the quality of the article) lower than any house west of the Allegheny Mountains.
Those disposed to suspect him of gassing, have only to call to be assured of their mistake.
