Are authorized Agents to solicit Subscriptions and Advertisements for the Advertiser, and receive and receipt for monies thereon.

JOB WORK.

With recent extensive additions of new Type, Cuts, colored Inks, Bronzes, Cards, &c., made to the "Advertiser" Office, we claim to be able to turn out Job Work in a manner unsurpassed by any office.—The proprietor being a practical printer himself, and having in his employ an accomplished and experienced Fancy Job Printer, is determined not to be out-done in the execution of Job Work. Cards Printed, with one of Foster's latest improved Card Presses, Blanks, Work in Colors, Bronze Work, &c., will meet with particular attention.

Orders from a distance will be promptly attended to, and warranted to give satisfaction or no pay.

Persons resident in this Territory, coming from various portions of the States, often suggest to us the names of persons in their old neighborhoods, who would doubtless become subscribers if they could see a copy of the "Advertiser." We always send a specimen copy, and persons receiving, will consider it a solicitation to become a regular subscriber. Postmasters and others, feeling sufficient interest to make up a club, can retain the usual per cent for their trouble.

☞ Single papers, neatly enveloped for mailing, can be had without charge, by visitors and others who wish to send occasionally to their friends in the States. ☜

Subscriptions received for three, six, nine or twelve months.

☞ Territorial Warrants and Nemaha County Orders—drawing interest—will be taken at par in payment for indebtedness to this Office. ☜

☞ The "Nebraska Advertiser" having much the largest circulation of any paper in the Territory, Wholesale Merchants in St. Louis, St. Joseph, Cincinnati and other Eastern markets where Nebraska merchants purchase, will find no better advertising medium in the Western Country. ☜

FLAX SEED.

WE have a few bushels of extra Flax Seed to loan in limited quantities, to such of our Farmers in this County who wish to get a start in Seed.

THE PRE-EMPTOR'S GUIDE

Is now ready for delivery to Agents, or mailing to order on the reception of $1.

Orders now in, and those hereafter received will be filled in the order in which they are received.

The Guide can be had at the LAND OFFICE and of ROOT & COZZENS in Omaha City, and of ARMSTRONG & DUNKIN, Nebraska City.

LAND OFFICE, OMAHA, N. T.
February, 17th, 1857.

We are informed that Mr. E. W. Furnas is about to publish a synopsis of the Pre-Emption Laws, together with late decisions, connected with that subject, and "Town Sites." We think such a publication is greatly needed, and a copy should be in the hands of every person in the Territory, as it will impart valuable information.

JOHN A. PARKER, Register.
A. R. GILLMORE, Receiver.

The absence of the senior editor, and also of the junior, Dr. HOLLADAY, who has gone to St. Louis for another supply of "ammunition, in order to open the largest wholesale and retail Drug store above St. Joseph, and the news that the "girl he left behind him" has married "another fellow," lately received by the foreman, which renders it dangerous to approach him on any subject, will account for the small quantity of editorial matter in to-day's paper, and may all be attributed to the DEVIL.

EMIGRATION.

The amount of emigration to the Territories from the Eastern States, since the opening of navigation the present season, is far greater than it ever has been before. Every boat is crowded from stern to stem with human freight bound for Nebraska.

Since the St. Mary made her first appearance at our wharf, the rush has been constantly increasing, and though the numbers that stop here are immense, they are very few when compared with the vast tide which flows into every point of the Territory. Our city is crowded with strangers, seeking a new home.

Let them come; all classes, all nations; all who are industrious, sober, and energetic.—Come then, from the crowded cities of the East, where the air is reeking with miasma, and disease stalks hideous along. Where labor is low and provisions high; where money is scarce and doctors plenty; where the rich grind the faces of the poor, and men in high places trample upon every law of justice and regard not the cry of the widow and orphan; where sin and crime, robed in purple and fine linen, go honored to their graves, and the virtuous poor regarded with loathing and contempt. Come, then, we say, from the densely populated East, where Mammon is the God worshipped, and learn here for the first time to "look through Nature up to Nature's God." Come where the qualities of head and heart meet their just appreciation, where virtue is its own reward, and the Almighty dollar loses its omnipotent power. Where a home can be had for the taking and your children grow up untainted by the pernicious influences of city life. Come to the West, where the air is pure and the soil rich; where you can live happy beneath your own vine and fig tree, with none to "molest or make you afraid."

PASS HIM AROUND.—On last Monday, a scoundrel, by the name of J. C. P. ORDWAY, stopped at this place with his wife, and taking her to a hotel ordered rooms, and immediately made rapid tracks for the boat which still lay at the wharf. The lady, whose suspicions were aroused, followed him, but did not reach the boat until it had shoved off. Her distress was agonizing to witness, but the human fiend turned a deaf ear, and without money, without friends, a stranger in a strange land, he heartlessly deserted the woman he had promised at the altar to "love, cherish, and protect."

MISSOURI CITY.

Town lots in Missouri City, Nebraska Territory, sold recently in New York at the rates of four hundred dollars each; purchases made principally by persons who design making Missouri City their permanent residence, this being the western terminus of the Iowa Central Air Line R. R. Decamah—now Missouri City was purchased from the former proprietors by eastern capitalists previous to the location of the western end of the I. C. R. R. Eastern capitalists have taken hold of this place owing to its superior landing and natural advantages. Missouri City is fast acquiring an important position among the prosperous towns on the Missouri river.—*Iowa Citizen.*

We have read of "woolly horses," heard rumors of the "sea serpent," and on one occasion, when extremely young, and our infantile bump of the marvellous extensively developed, we paid the last two bits, remaining in the juvenile treasury, for a sight at the mermaid; but all the humbugs of Barnum, (including the "Egyptian Mummy" and the "Buffalo Hunt,") boiled down into one solitary "sell" will not equal this beautiful specimen of sinnegan. This is emphatically giving to "airy nothings a local habitation and a name," for after consulting the best lights on the subject, we find there is no such place. Neither have we heard before of Decamah. Tecumah, which is located in Burt county, is some distance from the river, and moreover has not been sold to "eastern capitalists."

We hope the "important position already acquired by Missouri City," has not been to the detriment of other points enjoying equal advantages.

Two other mythical cities, named Montrose and Hudson, the former located in Harrison county, Iowa, and the latter in Washington county, N. T., have also been lithographed by a company of swindlers in the East. They are represented as being on the great central railroad, and destined to become "large cities in a few short years." Our readers are warned of purchasing any interest in them whatever, as they are merely paper towns and not worth a red.

OMAHA.—This fine boat, thoroughly repaired and gotten up in the best style "without regard to expense," made her first appearance at our wharf on last Thursday evening, with a heavy cargo of goods for this place and Sioux city. Capt. WINELAND we have travelled with, and mean what we say when we recommend him as one of the most pleasant, sociable and accommodating gentlemen on the river, while clerk WILCOX would make the dullest trip pleasant by his agreeable and winning deportment. Success to the Omaha!

THE WEATHER.

The Clerk of the seasons, by some fatal mistake, seems to have made a wrong entry of dates in the arrangement for the present year, setting down December instead of April.—Whether the steamboats have made the "upper landing" and that individual gone on a "bust" or not, we don't know, but one thing is certain as we heard a "young america" say, "some body's forgot something."

During the entire spring, and to the date of our last issue, we have had very little pleasant weather, and we see by our exchanges that this inclemency has been general. Last Friday morning was cloudy but not so cold as it had been, and we were in hopes some pleasant weather was about to set in, but alas for the frailty of all human hopes. About noon the wind changed and came sweeping down from the north, driving a mass of ominous looking clouds before it, and shortly the glittering flakes began to fall, the earth silently donned her winter robe, and rapidly resumed the cheerless aspect she has borne for five months. Saturday, all day the sun endeavored to lift the gauntlet King Frost had hurled to the ground, but without success. Sunday was warm and pleasant. During the week the appearances indicates spring at last. We hope so.

A CUT.—Without giving us the "unkindest cut of all," JOHN DOZIER, of the firm of MCALLISTER, DOZIER & Co., has presented us with the "cut direct" in the shape of a finely finished and beautifully ornamented knife, possessed of the keenest *cutting* proclivities. Those who want a good article in the cutting line had better "cut" for JOHN'S, as he has a large assortment of every description of *cut*-lery, all "warranted not to *cut* in the eye."

MIN-NE-HA-HA.—We hear encomiums of praise bestowed upon this boat by passengers who have stopped here and those of our fellow citizens who lately made a trip to Omaha and back, in regard to good treatment, superior fare and that essential quality in the successful enjoyment of said "grub"—attentive waiters. The band of music belonging to that boat discoursed some fine music while laying at our wharf.

Capt. BAKER and W. H. SCUDDER, the clerk, are gentlemen every way fitted for their position, and we predict an enviable popularity for the Min-ne-ha-ha.

THE WILD MAN.

The gentleman who recently created such *consternation* among the *sedate* people of our neighboring city, St. Joseph, was brought to this place a few days since, and is now incarcerated in our county jail, to await the action of the authorities in his case. He represents that his name is *Anson Wheat*, from New York—and when he was here sometime since, conversed rather fluently, and we saw none of the marvelous mysteries hanging over him, that were attributed to him by our chicken-hearted neighbors. He stated among other things that he was "hunting land to enter," and had entered a considerable portion, and owned a farm somewhere east of Platte river. Whether he belongs to the *genus homo*, or to another of the species of hipsis, the curious can decipher for themselves. As for ourselves we are satisfied he knows what he is doing, and where he is going.—and it is our opinion that he should be kept close, and not be suffered to roam at large, for it is impossible to learn what his real intentions are.—*Democrat*, (Savannah, Mo.)

We learn since the above was in type, from the same journal, that Wheat's case has been submitted to a jury of seventy the county court, and he declared insane and sent to the Lunatic Asylum. He appears to have been a well educated man. The causes which lead to his insanity are not known.

MCPHERSON, MORRISON & HUTCHINS, are on hand with a large and splendid stock of Spring and Summer Goods. This is an entire new establishment. Give them a call.

WEEKLY REVIEW.

The prominent topic of the week is the contemplated war against China. England and France have allied for this object and invite the United States to co-operate with them in the expedition. This is occupying, to a great extent, the attention of the press, and especially of the Cabinet. Although, at the latest dates from Washington, 8th inst., no final decision had been taken by the government, from what we learn we are inclined to believe that the proposition of England and France will be declined, and that the United States will merely send a special Commissioner to China in order to protect American citizens.—It is possible, however, that hostilities will be suspended, as a dispatch announces that the emperor of China has disavowed the conduct of his commissary at Canton.

Municipal elections have taken place in several States. In St. Louis, the Emancipation Ticket was carried by 1700 majority. This cannot be relied upon as a test of sentiment in regard to that question in any other portion of Missouri than St. Louis county.—There is, however, as is well known, a strong feeling throughout the entire State, upon this measure, and it meets with considerable sympathy among the people, especially in the northern part. How the matter will terminate is not easily foretold, but will probably result in that State becoming free, through gradual emancipation, in the course of the next ten or fifteen years.

News from Nicaragua are very contradictory. According to a report which reached New York on the 3rd inst., Walker had obtained a brilliant success; burned the town of San Jorge, and killed more than 600 Costa Ricans, whilst he had lost only *two* men. This created great rejoicing among his partizans in New York and New Orleans. But latest advices are of an entirely different and more probable character. They state that, on the 16th of March, Walker left Rivas with the main body of his army, about 300 men, in order to reach a more favorable point—that he was attacked by Costa Ricans, 1200 in number, and, after a desperate battle, he was compelled to resume his former position with less advantages than before.

From Europe, we have intelligence to the 28th ult.

The bellicose humor of Spain had considerably diminished; the proposed expedition is indefinitely postponed, England and France having notified Spain that if she engaged in war with Mexico, they would not interfere in case the United States used the occasion to seize Cuba. It is not probable, therefore, that Spain will risk her best jewel to gratify her warlike propensities.

The Sardinian Chamber of Deputies has voted $1,000,000 to put the fortifications of Alexandria in immediate state of defence in view of approaching hostilities with Austria. This appropriation seems to have quite calmed Austrian ardor; for, in a circular note, addressed to its agents in European courts, that government after setting forth its reasons for breaking diplomatic relations with Sardinia, adds that being determined not to compromise the peace of Europe, the withdrawal of its representatives from the Court of Turin, required by the dignity of Austria, will not be followed by measures of a more hostile character.

The French government projects an expedition against Kabyls.

The English Parliament has been dissolved by the Queen. New elections have taken place, and the result is reported favorable to the government.

Civil war was raging in Persia. An insurrection suddenly burst forth and was spreading rapidly over the country. The rebels had seized the Shah's uncle and demanded an enormous ransom for his release.

We received a file of New York papers from the accommodating and deservedly popular clerk J. J. WILCOX, of the Omaha, on last Thursday evening, only *thirteen days from New York to Brownville.* By Uncle Sam's route we received on the same day Kansas papers of February 28th.

Were it not for the gentlemanly accommodation we receive from the clerks of steamboats we would often have to do with regard to news as they do in other sections of the country—do without.

The will of Dr. Kane has been recorded in Philadelphia. He bequeaths $5,000 to his brother Robert, and the remainder to the rest of his family under such limitations as his father shall deem advisable.

THE MARIPOSA CLAIM.—The Syracuse Journal says, O. W. Childs, of that city, has had tendered to him the office of Engineer and Surveyor of the Fremont Mariposa claim by its present owners. It is their intention to subdivide this extensive grant into farms for actual settlers.

DEATH FROM A DISSECTION WOUND.—Dr. Champney died at his residence in Brooklyn (N. Y.) on Friday morning, 3d inst., from poison received while making a *post mortem* examination. On Monday, at the request of Coroner Rodden, deceased assisted in the *post mortem* examination of the body of John Elders, alleged to have died from violence at the hands of garrotters. While engaged at this he pricked the second finger of the left hand, and, notwithstanding every exertion was made to prevent a fatal result, he died, after suffering the most intense agony. Deceased was twenty-seven years of age, and had prepared himself for the successful practice of his profession by extensive travel and by practice in different hospitals.

AWFUL ACCIDENT.—Before going to press we are informed of a horrible occurrence which terminated the life of John E. Cake, of this county. He was burned to death on the 15th inst. No one was on the premises at the time, and before any one went to his assistance he was a crisp. He was highly esteemed by all and was truly a favorite with every individual of his acquaintance.

Astonishingly strange it is that a brother of Mr. Cake, came to his death by the same unfortunate circumstances a year or two ago.—*Savannah (Mo.) Democrat.*

REV. MR. KALLOCH.

The trial of this Rev. gentleman, before one of the Boston Courts for adultery is attracting considerable attention, and he is likely to become one of the most notorious men in the country. The Boston papers are filled with disgusting details of the scenes which the accused parties are said to have passed through. His counsel appear to have some heavy thunder in reserve, if we may judge by their coolness, and it is not improbable that they will prove the case to be one of black mail.—He has been a rigid advocate of the Maine Liquor Law, but the evidence in the trial show him to be an ardent lover of "old whisk" when behind the door. The following notice from the Chicago *Times* will serve to give our readers some idea of his character:

The Rev. gentleman is a distinguished member of one of the most extensive and respectable body of Christians. He is renowned for his eloquence; he has become the especial pet of a large circle of admirers in Boston. Independently of his clerical position he occupies another and no less distinguished one. He is a politician. In 1854 he was at the head of that organization which induced three thousand clergymen to announce "in the name of Almighty God" the Divine curses upon the United States Senate.

Since that period he has been an active, enthusiastic denouncer of the Democratic party. During the last summer he shrieked in "the name of the Almighty" for "freedom" He preached rebellion and insurrection; he preached assistance to the laws of the land; he urged that the rifle and the Bible should go together till this land was redeemed from sin and slavery. After the election was over, he it was, who from the pulpit on the Lord's Day, in the presence of men and women, and in the presence and temple of that Almighty Sovereign whose servant and minister he professed to be, declared that James Buchanan, the creature of slavery, would take upon himself the office of President against the indignant protest of INTELLIGENCE, VIRTUE, DECENCY and MORALITY of the Union. He now stands indicted by a grand jury of Massachusetts for debauching the wife of a friend, who had allowed her to visit his house; for outraging the virtue, decency and morality of a young and hitherto respected woman.

The Edinburg made her first appearance here the present season, on last Sunday. She was crowded with passengers and heavily freighted. She was one of she most popular boats that run the river last year, and seems determined to sustain that reputation. Clerk BLOCK, well known for his universal suavity of manners, has our thanks for files of St. Louis papers.

Steamer Admiral landed here on Monday morning. Our thanks for favors received.

HOBLITZELL & Co.—This enterprising and well known firm have been receiving, by every boat of the season, their spring stock of Goods, and are now prepared to furnish their customers with a good article at a reasonable price.

NEMAHA COUNTY,
April 21st, 1857.

MR. EDITOR:—Permit me, through your paper, to say that I have just returned from Pawnee county, with a small load of stone-coal, which I obtained in the southeast corner of said county, near the Kansas line, and on the claim of a Mr. Turner. The coal is now in use in your town.

But what took my attention most was the novelty to see a large black walnut tree, on the bank of the South fork of the Big Nemaha, taped in the old Virginia style, with two elder spiles and a trough at the root to catch the sap which was dropping from the spiles; I thrust my head into the trough to taste the water, and to my surprise found it as sweet as the sap from the soft maple, which I compared from another trough near by. I repaired forthwith to enquire into the character of the sap. The lady, (Mrs. Freeze,) informed me that it made good sugar, but not very fair, and that the molasses was not much inferior to the maple molasses. I would say to all those who have black walnut timber on their lands—give it a trial, if it works well your sugar and molasses will come cheaper than the present prices from the store. Who will be the first to give it a trial?

LONDON.

THIS beautiful Town Site is situated 5 miles North of Brownville on the Territorial road leading to Nemaha City, St. George, Glen Rock, and Nebraska City. It is well supplied with excellent water, is near the centre of Nemaha county, which is the best settled and improved county in the Territory, and from its location and close proximity to Timber and building material, cannot fail to become a good and flourishing inland town. Measures have been already taken to erect a Meeting and School house, a blacksmith's shop, dwelling houses and stores immediately.

All parties desirous of locating or purchasing can be accommodated on reasonable terms by making application at the Farm (in London.) Plats can be seen by applying to JOHN HAUMAN, or ROBERT HEAP.

TAILORING! TAILORING!!
E. E. PARKER,
Merchant Tailor,
No. 23 Main Street,
BROWNVILLE, NEBRASKA TERR.

HAVING bought property and located permanently in Brownville, I offer my services to the public generally, if they want any thing done in my line of business. I can always be found at my post, or, more properly speaking at my bench.

Work Warranted—No Fit, No Pay!

Particular attention paid to cutting garments and laying off work for the Seamstress. The greatest portion of my life has been devoted to my trade, in which I consider myself infinite to none, especially in the cutting department, and I hope by close attention to my business to merit a share of public patronage. E. E. PARKER.
