BROWNVILLE FERRY

Best Crossing

ON THE

Missouri River.

The Route from Brownville to Ft. Kearney, and from thence to California, is the nearest and most practicable.

FINNEY & CODINGTON,

ANNOUNCE to the Traveling Public that they have purchased the entire interest in the Ferry across the Missouri River at the City of Brownville, Nebraska, and open the Season with a new substantial and commodious Ferry Boat, run by Horse Power, which arrangement will secure certain passage at, all times and in all kinds of weather. The Proprietors do not assert boastingly, or for the purpose of gaining custom merely, but are governed by facts, when they say this is the best crossing of the Missouri River in Nebraska, and when they say the route from Brownville to Fort Kearney and from thence to California is the nearest, for evidence they refer the reader to the map of the Country; and are warranted in saying it is the most practicable route by personal experience, as well as that of hundreds of others who have traveled it.—We claim therefor that this crossing and route holds out peculiarly favorable inducements, to persons going to California, and solicit their patronage. Notwithstanding our superior arrangements for a safe and speedy crossing, our charges are the same as other Ferries in Nebraska, all being regulated by Legislative enactment.

A skiff will be in readiness and a hand on the ground to run all hours of the night.

☞ Recollect that with our facilities of Power, no kinds of weather will prevent our Boats from making regular trips at all hours.

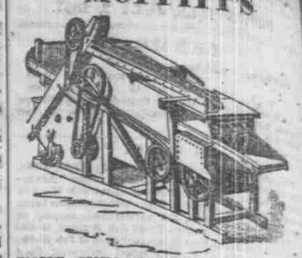
PATENT GRAIN SEPARATOR.

MOFFITT'S



THE SUBSCRIBER is now prepared to furnish Farmers and others with his

"GRAIN SEPARATOR,"

for the present season. It is unnecessary to speak particularly of the merits of these Machines, as they are too well known throughout the country to need extolling; but the fact that they have heretofore and are continuing to receive the premiums at the State and County Fairs where they have been exhibited is sufficient to induce all those in want of such a Machine, to purchase one of these.

At a practical test of this Separator in competition with the best of those made in England, in 1855, it received the highest commendations of the press, and of the leading agriculturalists of that country.

I have a large number of them on hand, ready for the coming crop, made of the best material, and warranted to do good work.

I have made many valuable improvements in these machines within the last year, and have no hesitation in warranting them superior to any in use.

I am also preparing a large number of Crawford's

Improved Clover Hullers,

patented in 1854, which are greatly superior to his patent of 1844, being in itself feeder, and greatly ahead of it in other respects. They will be manufactured under the immediate superintendence of the patentee, who has permanently located in this place.

The above cut represents my four horse "Separator," and is designed especially for the farmer's own use."

Im also agent for McCormick's celebrated HEADER and MOWING MACHINE, combined.
