1857. BROWNVILLE FERRY

Best Crossing

ON THE Missouri River.

The Route from Brownville to Ft. Kearney, and from thence to California, is the nearest and most

practicable. FINNEY & CODINGTON, NNOUNCE to the Traveling Public that they Greene, Weare & Rice, A have purchased the entire interest in the Ferry Greene & Weare, across the Missouri River at the City of Brown-ville, Nebraska, and open the Season with a new substantial and commodious Ferry Boat, N. W. Thomas, run by Horse Power, which arrangement will secure | Schooly & Son certain passage at, all times and in all kinds of weather. The Proprietors do not assert boastingly, or for the purpose of gaining custom merely, but are governed by facts, when they say this is the best Robinson & Pro., crossing of the Missouri River in Nebraska, and Burlington Co. Bank, when they say the route from Brownville to Fort Kearney and from thence to California is the nearest, for evidence they refer the reader to the map of the Country: and are warranted in saying it is the most | 1711 17 practicable route by personal experience, as well as that of humbreds of others who have traveled it .-We claim therefor that this crossing and route holds out peculiarly favorable inducements, to persons going to California, and solicit their patronage. Notwithstanding our superior arrangements for a safe

and speedy crossing, our charges are the same as other Ferries in Nebraska, all being regulated by Legisla-A skiff will be in readiness and a hand on the round to run all hours of the night. Recollect that with our facilities of Power. no kinds of weather will prevent our Boats from making regular trips at all hours.

PATENT GRAIN SEPARATOR MOFFITTE

FITHE SUBSCRIBER is now prepared to fu nish Farmers and others with his

"GRAIN SEPARATOR," for the present season. It is unnecessary to speak particularly of the merits of these Machines, as they are too well known throughout the country to need 100 " O G Java Coffee 200 bbls and hf bbls pilot extelling; but the fact that they have heretofore and are continuing to receive the premiums at the State 200 bols soda milk sugared | and County Fairs where they have been exhibited is sufficient to induce all those in want of such a Machine, to purchase one of these.

At a practical test of this Separator in competition with the best of those made in England, in 1853, it received the highest commendations of the press, and of the leading grigulturalists of that country.

I have a large number of them on hand, ready for the coming crop, made of the best material, and war-I have made many valuable improvements in these machines within the last year, and have no hesitation

in warranting them superior to any in use.

I am also preparing a large number of Crawford's Improved Clover Hullers, patented in 1854, which are greatly superior to his patent of 1844, being in itself feeder, and greatly ahead of it in other respects. They will be manufactured under the immediate supervision of the patentee, who has permanently located in this place. The above cut represents my four horse "Separaotton and hemp twine, wheat and meal sacks, axes, tor," and is designed especially for the farmer's own

FAMILY PHYSIC

THERE has long existed a public denual for a effective pargative pill which could be relied as a sure and perfectly safe in its operation. This is been prepared to meet that demand, and an example trial of its virtues has conclusively shown win what success it accomplishes the purpose desired. It is easy to make a physical pill, but not can be the best of all pills—one which should. make the best of all pills — one waich about have none of the objections, but all the administration of every other. This has been attempted here, as with what success we would respectfully mimit the public decision. It has been unfortunate the patient hitherto that simost every press els. This is not. Many of them produce so no griping pain and revulsion in the system as to a an counterbalance the good to be derived in them. These pills produce no irritation or par enless it arise from a previously existing date tion or derangement in the bowels. Being per vegetable, no harm can arise from their me in a quantity; but it is better that my medicine she be taken judiciously. Minute directions for the use in the several diseases to which they are a plicable are given on the box. Among the map plaints which have been speedily cured in them, we may mention Liver Complaint, in its various tens of Jaundice, Indigestion, Languor and Less of Application, Language a of Jaundice, Indigestion, Language and Loss of the petite, Listlessness, Irritability, Bilious Headale, Bilious Fever, Fever and Agur, Pain in the Sile and Loins; for, in truth, all these are but the management of diseased action in the liver. As a aperient they afford prompt and sore relief in Co tiveness, Piles, Colic, Dysentery, Humor, Amid and Scurvy, Colds with soreness of the bouy, Ul and impurity of the blood, Irregularities; in short any and every case where a purgative is required. They have also produced some singularly as cessful cures in Rheumatism, Gout, Drops, Grand. Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be fresh taken in the spring of the year, to purify the blue and prepare the system for the change of season An occasional dose stimulates the stomeh of bowels into healthy action, and restores the spectite and vigor. They parify the blood, and by the stimulant action on the circulatory system, movate the strength of the body, and restes to wasted or diseased energies of the whole agrain. Hence an occasional dose is advantageous, though no serious derangement exists; le necessary dusing should never be carried to a as every purgative medicine reduces the stough when taken to excess. The thousand casein about a physic is required cannot be cummented him, let they suggest themselves to the reason of reason of reason of reason of reason of body; and it is contidently believed this mil w answer a better purpose than any thing which has hitherto been available to mankind. When the virtues are once knows, the public will no leader doubt what remedy to employ when in used also
