

R. W. FURNAS, EDITOR.

THURSDAY MORNING, MARCH 14, 1858.

Nemaha County Agricultural Fair.

The officers of the Nemaha County Agricultural Society have determined to hold the first annual fair on Wednesday, Thursday and Friday, October 13th, 14th and 15th.

In offering premiums the Society has adopted a new system which we are firmly of the opinion will result in creating and perpetuating an agricultural spirit unsurpassed, at least in any country the age of ours.

We have for a number of years, been concerned in getting up and conducting Agricultural Fairs, and have ever been in favor of this system.

Far be it from us to "wrong or see wronged" intentionally, our friend Capt. Moore; and we take pleasure in saying that he, as a member of the Legislature, and as a citizen, has never endorsed the course of "fire eaters" on either side.

The Missouri river is now in good boating order, and we may safely expect a steamer within at least ten days.

The Florida and Ryland arrived at St. Joseph on the 9th, filled with passengers. We learn, from a passenger who arrived here by stage, that Jefferson City was filled to overflowing with those seeking a passage to various points up the river.

Land Sales—The way it works. In speaking of Land Sales and the result following, the Council Bluffs Bugle says:

The Land Office in this City was opened for private entry on the 23d ult., and at the closing of the office on Saturday evening, over eighty-four thousand acres had been entered, being an average of near seventeen thousand acres per day.

Some of our friends have thought that the opening of the Land Office would make times better, but we think it will have the contrary effect.

Duelling and knock downs appear to be in the regular order of business of late. The Saint Louis Republican of the 24th says:

Washington was full of rumors of impending duels, on the 20th. Even Grow and Keitt are said to have absented themselves for the Canada lake, to take a shot at each other; but the thing is altogether improbable.

It is stated in the New York Journal of Commerce that the number of persons at this time receiving alms in that city is more than one sixth of the entire population.

A third affair caused quite a sensation. A. C. Rhind, formerly of the Navy, sent a challenge to Commodore Boutwell, in consequence of certain charges made in a pamphlet, recently published by the latter.

The week's entertainment wound up with a quarrel between Clay and Cullom, which there is some hope of an amicable termination.

Plain and Sound.

The Janesville (Wisconsin) Standard, whose columns often contain some of the ablest vindications of Democratic principles, thus closes a vigorous review of the Leecompton question.

We believe that the approval of the Leecompton Constitution by the action of the Democratic members of Congress, under the pressure of the power and influence of the administration, will be a gross and wanton violation of the pledges which our President and Senators, and Representatives made to the party and to their country prior to their election; and if the dearest principle of our political faith is to be violated, and the rights of the people tyrannically invaded, let the sin and the punishment be not on the grand Democratic party of the Union, but upon the unworthy servants who have betrayed their trust.

Courting Cousins.

One of the favorite customs in all civilized communities is the flirtation and courting of cousins. The Legislature of Kentucky, however, has interposed its authority to break up the delicious custom—they have passed an act prohibiting the marriage of first cousins in that State.

The Saint Louis Republican notes a heavy operation in provisions in that city on Tuesday, amounting to a money value to over \$100,000. The seller was a gentleman of Peoria, and delivers most of the stuff in that place at advanced quotations.

General Concha has granted permission for the publication of a newspaper in the English language in Havana. This is the first time such permission has been granted, though repeatedly applied for.

Nebraska Legislature.

Let not our readers conclude from the disgraceful conduct of our legislative members, that there is not virtue and intelligence enough among our people to set us right at the next political tribunal. This will surely be done.—Nemaha Valley Journal.

The Kentucky Legislature adjourned sine die on Wednesday the 17th ultimo. Among the acts passed were extensions to the charters of several banks, which expire in five or six years, for twenty years longer.

Lieut. Allen Supposed to be Lost. The Oregonian states that a few weeks since Lieut. Allen, of the U. S. Army, left Dallas, Oregon, with a small party of men for Fort Simcoe.

At a meeting of agriculturists of Douglas county held at Omaha on the 30th of January, the undersigned were appointed a committee to correspond with different agricultural societies, farmers, and stock raisers generally in Nebraska, on the importance of forming a Territorial Agricultural Society.

The Committee take this means of soliciting information from all parts of the Territory in favor of said organization. The importance of a Territorial organization need not be argued as its importance is apparent to every farmer and stock raiser in the Territory.

British Ship Letter Postage. We are requested to state that the British rate of postage upon letters dispatched from or brought to any part of the United Kingdom by a private ship, whether steamer or sailing vessel, has been reduced to a uniform rate of six pence (12 cents) the half ounce.

It is stated in the New York Journal of Commerce that the number of persons at this time receiving alms in that city is more than one sixth of the entire population.

A third affair caused quite a sensation. A. C. Rhind, formerly of the Navy, sent a challenge to Commodore Boutwell, in consequence of certain charges made in a pamphlet, recently published by the latter.

The week's entertainment wound up with a quarrel between Clay and Cullom, which there is some hope of an amicable termination.

Home Correspondence.

Hon. R. W. FURNAS: Dear Sir—Yours of the 17th was received yesterday; and I take pleasure in complying with your request, as I am willing to see all the facts go before people. I have just published a statement in the News, of the 20th, over my signature containing all the information desired by you. Let you should fail to see that paper. I will however state that the "exact words" endorsed upon the bills presented to him on the 13th day of January by Mr. Allen and myself enrolling committee of the Council, and Mr. Taggart, Mr. Hall, and Mr. Abbe enrolling committee of the House, were as follows:

"This paper was left in my room on yesterday, Jan. 13th, 1858, after I had refused to receive it. I neither veto nor approve it; but very respectfully return it." W. A. RICHARDSON.

Upon our introduction to the Governor, Mr. Allen notified him that we were the enrolling committees of both branches of the Legislature, and that we had a number of bills to present to him for his approval.

They were never returned to the Legislature at all, but were thrown down upon a table at the Willett House, surrounded by a promiscuous company of members and others, about 9 o'clock at night. I believe with you that those Acts are laws, and no one more sincerely regrets than I do that the Governor could not find it in his heart to act with the large majority of the Legislature.

General Concha has granted permission for the publication of a newspaper in the English language in Havana. This is the first time such permission has been granted, though repeatedly applied for.

According to the Mobile Tribune, the merchant who made the first shipment of cotton from that port is now living and engaged in business. The first vessel loaded with cotton he had to send to New Orleans to get 400 bales to fill up. Six hundred thousand bales are now annually shipped from Mobile.
