Peru gains addition to this improvement, Peru gains in the person of Hon. J. G. Ause, a valmable go-shead citizen.

Russian Club Wheat-

Judge JESSE Coll has left at our office a handful of COLE has left at our office a handful of the heads of Russian Club Wheat of the MANUFACTURES and keeps constantly on hand for sale, all kinds of Flour. Meat, present seasons growth which for size and on most favorable terms. Cash paid constantly for indications for yield exceeds anything we Wheat. For character of Flour refer to everybody have ever yet met with. This is the first St. Joseph, Mo., Aug. 30, 1856. v1n13- y and only wheat of the kind raised in this Fashionable Tailor. bushels per acre. The Judge feels confident his crop will give the most perfect satisfaction, and judging from the heads shown us we cannot see how it can fail to do 50.

Coroner's Inquest.

Coroner Plasters on Thursday last, held an inquest on the body of a man found in the Missouri River, near Peru in this county.

Deceased was about five feet cight inches high; supposed to weigh one hundred and fifty pounds; red whiskers extending all around the chin; light colored hair; front teeth full and sound, and was thought to be between twenty-five and er all kinds will be faithfully attended to. thirty years of age.

Verdict-"Came to his death at some time and place and by means unknown to the jury."

On Saturday evening last, another inquest was held on the body of a man found in the river, just above this city. He was so decomposed that no description could be had.

Both the above being in a nude condition it is supposed they were drowned for cash, 75,000 pounds excellent bacon. at some point above while bathing.

Hotel, and many etters. Did space permit, we could give many hundred ertificates, from all parts where the Pills have een used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical

science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together n such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly ob-vious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each indi-vidual virtue only that is desired for the curative effect is present. All the inert and obnoxious qual-ities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-ovident the effects should prove, as they have proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be

promptly forwarded by mail to his request. Of all the Patent Medicines that are offered, how few would be taken if their composition was known ! Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was meed by scientific men to be a wonderful

dicine before its effects were known. Many cminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action - remove the obstructions of the stomach, bowels, liver, and other organs of the
