THURSDAY MORNING, AUGUST 19, 1858. We have not felt at all like writing for our paper this week; have been quite "under the weather;" and beside have been busy posting our books and endeavoring to collect a few dollars with which to satisfy the cravings of paper and type manufacturers, jour printers, and our wife and little ones. They all inform us that cash is indispensable, no matter if times are hard.

While upon this subject, allow us to say that we do hope those who know themselves indebted to us will pay up-at least a portion-without further delay. We would rather do almost anything else than dun a man; it is the most unpleasant act to us that we can perform. We are not oppressive, have not been, nor do we intend to be. We are willing to "live and let live," especially these hard times; but it is impossible to get along without some money. Our hands have been very indulgent, so have our paper, ink and type men; but they say they must have some of the needful now, and we are bound they shall. To abcommodate them, we don't relish the idea of paying five per cent per month for money, when we have ten dollars owing us to where we owe one dollar.

Settlers Meeting.

The settlers meeting of Nemaha Land District, held in this city on Saturday last, was well attended, and none other than a spirit of heartfelt interest in behalf of the oppressed settlers manifested. The proceedings of the meeting will be found in full in to-day's paper.

Judge Holly, Col. Martin and R. Brown, left this city on Monday afternoon for Washington. They will be joined by Hon. Jas. Craig at St. Joseph. All that Strickland. can possibly be done will be by these gentlemen to effect a postponement of Land Sales. We acknowledge that we have our doubts as to their success; and by Mr. Sharp. yet we are not sure but the late moment, as it were, is a propitious one. Since the election, we see that our Territorial papers are talking of an extra session of the Legislature. We were informed before the election by what we considered reliable authority that Gov. Richardson had so decided. We, with practicable. There are many reasons, we think, why this should be done. The simple fact that we are much in need of MR.
