Brownville Steam Ferry!
BEST CROSSING
ON THE
MISSOURI RIVER.
The Route from Brownville to Ft. Kearney, and from thence to California, is the nearest and most practicable.

BAKER & CODINGTON
ANNOUNCE to the traveling Public that they are now running ... in the Missouri river at ...
An entirely new, substantial and commodious
STEAM FERRY BOAT,
Which ... will secure a certain and safe passage ... times and in all kinds of weather. ... not assert boastingly, or for the purpose ... system merely, but are governed by facts ... say this is the best crossing of the ... in Nebraska, and when ... Brownville to Fort Kearney and from the ... route is the nearest for evidence they refer the ... Country; and are warranted in saying it is the most practicable route by personal experience, as it is one that of hundreds of others who have traveled it.—We claim therefor that this crossing and route holds out peculiarly favorable inducements, to persons going to California, and solicit their patronage. Notwithstanding our superior arrangements for a safe and speedy crossing, our charges are the same as other Ferries in Nebraska, all being regulated by Legislative enactment.
☞ Recollect that with our facilities of Power, no kinds of weather will prevent our Boats from making regular trips at all hours.
☞ A skiff and hand will be in readiness to cross foot passengers at all times of night.

Honey Creek Mills.

The undersigned respectfully announce that they are prepared to fill all orders in their line promptly at their mills four miles northwest of Brownville, near the mouth of Honey creek. They have on hand the largest and best assortment of lumber, shingles and lathe ever offered in the county or Territory, consisting of
40,000 feet seasoned siding;
40,000 " cotton-wood flooring;
20,000 " ash and oak
25,000 " cotton-wood, soft maple, lynn and walnut finishing lumber;
8,000 fencing;
60,000 balusters, sizeing and seantling of almost every size both hard and soft wood;
50,000 " inch and square edged sheathing;
200,000 superior sawed shingles, oak, walnut and cotton wood;
150,000 lath; a superior article, of uniform length, thickness and width.
Their mills are under the charge of experienced and efficient men, and the undersigned flatter themselves that the quality of their lumber will compare favorably with any other made in the Territory, all of which will be sold to suit the times.

COMBINATION PATENT."
UPRIGHT STEAM SAW MILL.
This mill commands the universal admiration of sawmill men every where. As its merits become known, the demand for it increases. Orders are coming from every section of this country, Canada, Cuba, and South America. It is suited for every section of the world wherever there is timber to be sawed, no matter of what character how large, how large or how small. Two extensive Manufactories are now engaged in building the machine, yet it is almost impossible to turn them out as fast as they are wanted. They embrace several valuable patents and improvements, and combine all the following advantages:
Simplicity—It is the mill and power are as simple in their construction that any one of ordinary mechanical ability can put up the machinery themselves and run them without danger or difficulty.
Portability—The whole establishment can be very quickly taken apart and put together, thus rendering it easy to be moved from place to place. Good roads always required.
Durability—It is constructed in the most solid and substantial manner, runs perfectly steady, is not liable to get out of order, and will last for years without repairs.
Rapidity—It will saw faster than any other mill of the same power now in use. Three of these mills are now running for Messrs. Hall & Co., of Nebraska City, which saw from 3,000 to 5,000 feet per day. The Messrs. Kinnie, of Plattsmouth, have one of these mills in their mammoth establishment, which will saw 10,000 feet per day. Numerous others are in operation, all of which will saw from 3,000 to 5,000 feet per day. These are medium sized mills, and will saw through a log twenty-four feet long in almost three minutes. From this data no one knows the character of the timber can calculate how much it will saw per day.
Efficiency—It does its work well, cuts smoother and straighter than the ordinary mills, and the arrangement of the saw is such as to render it utterly impossible for it to run out of line.
Cheapness—The entire cost of the mill, with fifteen horse power and everything all complete and ready for running, boarded ready for shipment in St. Louis, is only $1,250.
This mill requires less power to drive than any other mill, and the power furnished is sufficient to drive extra machinery.
A circular containing full particulars will be sent to any one desiring it. All orders should be addressed to BRAGG & BURROWES,
Corner Third and Mold streets St. Louis, Mo.,
sole agents for the Western and Southern States.

McCORMICK'S
Reaper & Mower for 1858
C. HYATT & Co., Agents,
St. Joseph, Missouri.
Is again offered to the farmers of Missouri, and Nebraska, as the best Reaper in the world, and the best established Reaper and Mower warranted. For three years past I have avoided attending the various State and County Fairs, for the purpose of seeking premiums for having my machine in the well known, to them, that sort of competition. In July last the United States Agricultural Society, at their Fair at Syracuse, New York, awarded to me a
GOLD MEDAL and DIPLOMA,
For the best reaping, mower, or mower and reaper in the grand trial of harvesting machines. At the Ohio State Fair in 1851 to C. McCORMICK, as the inventor and manufacturer and owner of the AMERICAN REAPER, and also at the great exhibition at Paris in 1855, was awarded the grand Gold Medal. And in the richest prize awarded to any reaping machine in the Royal Agricultural Society of England in 1857 and in ... over 200 ... of my ...
Farmers desiring the McCormick Reaper and Mower for the present year will secure by leaving their orders ... before the 1st day of March next.
