an assortment of Saddlery, Hames, Springs, Axles, etc.,  
as may be required in their line, East or West.

"COMBINATION PATENT."

**UPRIGHT STEAM SAW MILL.**

This mill commands the universal admiration of  
mill men throughout the country, and the demand for it increased.

Orders are coming from every part of the country, and  
there is still a demand for it, of whatever character

how hard, how large or how small. Two extensive manu-  
factories are now engaged in building these mills, yet  
it is still possible to get one made to order.

Any number of mills can be had, and several  
are wanted. Many additional several patents and  
improvements, and combine all of the following ad-

ditions—Both the main and side saws, and the  
crosscutting saw, which is of ordinary mechanical  
construction, though they are turned up round them

with a single edge.

CHARLES GARDEIN,  
Chicago, Ill., May 1, 1858.

Dry Goods.

Weld's Pump Office, Nassau St., April 12, '58.

Weld's Pump Office, Nassau St., April 12, '58.

Two weeks ago, I received a bottle of your Hair Restorative  
and will give it my wife, who concluded to try on her hair  
little time ago, and it has been a great success, and she is  
surprised at the original color, but to her as well as myself,  
after a few weeks' trial, has performed that wonderful effect by turning all the gray hairs to a dark  
brown. I strongly recommend the above Restorative to  
all who may be interested in it.

Having given full satisfaction to our customers,  
we are anxious to have them call upon us.

Merchants desiring to do business with us,  
please call and see us.

All orders will receive prompt attention.

J. G. KILEY,  
Chicago, Ill., May 1, 1858.

Prof. Wood—About two years ago my hair commenced  
falling off and turning gray; I was fast becoming bald,  
but by using your Hair Restorative, I have turned my  
hair back to its original color, but to her as well as myself,  
after a few weeks' trial, has performed that wonderful effect by turning all the gray hairs to a dark  
brown. I strongly recommend the above Restorative to  
all persons in want of such a change of their hair.

CHARLES GARDEIN,  
Chicago, Ill., May 1, 1858.

Prof. Wood—With confidence do I recommend  
your Hair Restorative, as being the most efficacious  
article I ever saw. Since using your Hair Restorative  
my hair has turned back to its original color, but to her as well as myself,  
after a few weeks' trial, has performed that wonderful effect by turning all the gray hairs to a dark  
brown. I strongly recommend the above Restorative to  
all persons in want of such a change of their hair.

J. G. KILEY,  
Chicago, Ill., May 1, 1858.

This mill requires less power to drive than any other  
mill, and the power furnished is sufficient to drive every  
kind of mill.

The speed of the saw is about three hundred

strokes per minute, and the feed from one to three

to three-quarters of an inch per stroke. Thus, at a single

stroke, the mill will cut a log six inches thick in about three minutes. From this, any one knowing the character of the timber, can calculate how  
many logs will be required to make a certain quantity of  
timber.

Efficiency—it does not splinter, cuts smoother and  
straighter than the ordinary mills, and the arrangement  
of the saws allows it to render it utterly impossible for  
it to catch.

Strength—the entire cost of the mill, with fifteen

horse power and everything all complete and ready for  
use, is \$1,700.00, and ready for shipment to St. Louis.

This mill requires less power to drive than any other  
mill, and the power furnished is sufficient to drive every  
kind of mill.

A circular containing full particulars will be sent to  
any one desiring it. All orders should be addressed to  
J. G. KILEY, CHICAGO, ILL.

BEARD & BROTHER,  
PROPRIETORS OF THE  
EXCELSIOR II

SAFE AND SCALE WORK

SAINT LOUIS, MO.

Bank Safes of Hardened Steel, and Chilled

Iron, Jewellers and Express Safe,

Vaults, Bank Locks, etc.

The recent terrible fire of the City Buildings,  
which the Excelsior triumphed over all others, fully establish-

es the superiority of the Excelsior Safe, which merits

the confidence of all business men.

They claim that the Excelsior being the only safe  
attemping in the fire for nearly half an hour, and then cut

out, had saved the Books and Papers which were taken  
out with them, and were entirely consumed, must

impress all with the necessity of examining their safe.

Safe having stood the test and come victorious.

We please to manufacture ours, but such as can be  
relied on, and refer to the following:

Certificate.

We, the undersigned, take pleasure in testifying to  
the reliability of the Excelsior Safe, which has  
been submitted to the burning of the City

Buildings, the nineteenth of November, 1856, and are ins-  
tructed to furnish the same to those who desire it.

It is a safe of the best quality, and is  
designed to stand the test of fire.

Those received for all kinds of Blank work.

July 1, 1858—41.
