Indian Outrage,

We learn by Messrs. Brown and Coleman, who have just returned from a trip in the interior, that a most hellish outrage was committed in Gage county, on Christmas day, by a number of Indians representing themselves as Pawnees, but who are supposed to have been Otoes.

It seems that a Mr. Patton, residing in Gage county, beyond the Blue river, came into the settlements on the Missouri river for supplies, and left his family, wife and three small children, in charge of a young man in his employ. A day or two after his departure some eight or ten Indians came to the residence of Mr. Patton, and breadth. Near this lake we came to demanded something to eat. Mrs. Pat- Battle Creek Settlement-a village of ton gave them some foud, after eating which, all but three of them went out the house. One of the three remaining Indians rudely seized Mrs. Patton, who Stopping in the principal street of this resented the insult by a stunning blow with a heavy fire shovel; the three villianous devils then seized the woman, and in turn violated her person, in the presence of the young man left to protect the family. The Indians then stole and drove off all the sheep belonging to Pattonfifteen or twenty-and fled. Mrs. Patton with her children, who were without shoes, immediately started on foot for the nearest settlement, a distance of ten miles .-The outrage having been committed late in the afternoon, it was quite late at night when she and her little ones reached a neighbors, and strange to say, the child-

Gold Discoveries.

The present year has witnessed gold discoveries which, in their extent and richness, may not prove less important than those formerly discovered in California. The mines opened near Ft. Yuma are very rich, by accounts recently received from there. A correspondent from Fort Yuma says: "Several parties of officers and officers' families, stationed at this Fort, have visited the mines, and they are all satisfied that the mines now worked are valuable. One of the officers, to satisfy himself by actual observation, stood by and watched the washing of a cart load of dirt. The entire load, containing forty-four buckets of dirt, gave fifty-one dollars, besides about times, a long experience having taught me that a four dollars in specimens given to a lady ney thus spent is well laid out; and by keeping while the washing went on, and which were not weighed. Another gentleman was invited by a miner to go up to a new spot, and see what the prospect would be. After some eight inches of surface dirt it good policy to advertise long in the same pages. was removed, the gentlemen picked out a day since our arrival, that we could not to about \$1 50, and a panful of the re- alone can give.
