Who will be the Nominee of the Charleston Convention. Agreeable to promise we resume the

above subject this week.]

The Hon. Jeff. Davis is not without friends, a fact which will appear at the Charleston Convention. Some of our southern Democrats look upon the said Jefferson Davis, as being a few shades only below his distinguished namesake, and that as Chief Magistrate of the Naer be able to raise a "corporal's guard," to rally under the wing of his Southern placed their mark on the Hon. gentleman; extreme. his claims are shadows, without the semed as a nulity in 1860.

worthy Secretary of the Treasury, it is er faltered, vascillated, or hesitated in will not, so far as we know, be an aspir- dence of the people, receiving a pracunnecessary to speak at length. South will fail in obtaining the nominee the Union. of the Charleston Convention. The agicannot be prevented, or kept in the back- cause of Democracy in the year 1860. ground. It will constitute the great question in the next National Campaign .-The Tariff, Cuba, Pacific railroad, and other measures will scarcely attract attention, compared with that of negro slavery. Northern Democrats having always acted with the party on the expressed grounds of Nationality, "knowing no North, no South, no East, no West," will call for an adherence, or re-adoption of the same principles; demanding non-intervention in the Territories, on the sub ject of all domestic institutions, and the re-affirmation of "Popular Sovereignty," which muny of our pseudo Democrats of late have declared to be a "misnomer," and "a damnable doctrine." We assert and time will confirm our predictionthat the Delegates to the Charleston Convention, will accept of no other principles than those embodied in the Cincinnati Platform. Will the South acquiesce ?-Will Administration Democrats accept of that which to all appearances they now ignore? If not, will they attempt the insertion of an old Republican plank in the platform, to the effect that it is the duty of Congress to interfere directly with the subject of slavery in the Territories, and thereby abandon the principle of self-government? The affirmative of these questions is not based entirely upon hypotheses. Look at the actions and words of the great mass of those who style themselves the master spirits of Democracy in the South; among whom are those whose names have already been mentioned as aspirants for the Presidency. Then take a glance at the ominous magisterial language lately published, and endorsed by those called "good democrats," and say,

mation of the cherished principles of

" Popular Sovereignty." To discard

these principles, will effectually seperate

the party, and in place of being a "Great

The Very Latest from the Gold

On the first page of to-day's paper, will be found the very latest, and we are quite sure the most reliable and satisfactory intelligence from the Nebraska and Kansas Gold Mines, yet received. Mr. Lawrence is known as one of the earliest adventurers to "Pike's Peak;" has explored the whole country as thoroughly, and etenxsively as any other man. In addition, he is an old Californian, with gold country experience. Therefore, any information obtained from him is of the most reliable character. The other gentlemen, Dr. Kunkle, Mr. Wimer and Mr. Hall, we may say, are men of equal character and standing, and entitled to the utmost credence.

Upon their reports, and exhibition of the "dust" we have no hesitancy in saying to our friends and readers here, and in the States, that the new El Dorado

Green, Chambers & Co.

This extensive business firm, located at Peru, in this county, is deserving notice. They are, without doubt, doing business more extensively than any other firm in the county. They have an excellent flouring mill now in successful operation, at which is manufactured 50 barrels of flour per day; a steam saw-mill turning out any quantity of excellent lumber; a shingle machine of the latest and most improved patent; several circular saws by means of which lath, pickets for fencing, railing &c., are produced in immense quantities. In addition to the above, they have recently opened out a stock of Dry Goods, Groceries, &c. Such men are valuable acquisitions, of which any point should be proud. Nebraska cannot have too many such; and besides, localities thus favored should feel the imperative necessity of sustaining men who invest their means, and devote their time to enterprises calculated to assist materially in building up the country.

The Difference in Favor of the Brownville Route to the Mines.

On the 8th of February the Nebraska City News published an extra containing the "very latest from the mines," 6th of January. On the 4th of February the Nebraska Advertiser published an Extra containing the "very latest from the Mines," dates 8th of January. This shows a very handsome difference in favor of the Brownville route. How do you like it Milton?
