Another Arrival at Brownville. RETURN OF BAKER AND EDWARDS OF THE BROWNVILLE COMPANY. CONFIRMATION OF PREVIOUS

REPORTS.

On Monday last, we had the pleasureof welcoming Messrs. JOSEPH BAKER and A. C. Enwanns, who have just returned to this place from the gold mines. These gentlemen are old and reliable citizens of this city, who, in company with others of Brownville and vicinity, left last October on an exploring expedition to the newly discovered gold region.

This company went out principally for the purpose of reporting to those contemplating a trip to that place the coming spring. We have received and published several letters from them, which were satisfactory to those interested, and known to be perfectly reliable. Their statements verbally, however, are far more flattering than their written accounts, and confirm all that has heretofore been published in regard to the extent and diffusion of the gold deposit. Mr. Baker is an old Californian, and is confident that from \$8 to \$10 can easily be made per day in the spring. Mr. Edwards, at the time he left, could average on his claim 75 cents per hour with a rocker, but owing to the cold description of labor, (working in the water in winter.) could only work for a short time per day.

The winter has been mild, and food for cattle plenty, and the cattle returned in as good order as when they left here. This portion of the company started from

This mode of advertising is good enough; but men only ought to adopt it who have soul and liberality to carry it out better.

It was contended by the defence that the conveyance by Northrup to Atwater was void by the act of Congress 1841, which declares that any assignment or transfer of pre-empted land before the actual issuance of the patent shall be absolutely void. The Courts held otherwise, and the Minneapolis Water Company was put into full possession of its valuable property.

Hard Times at the West. Mr. S. S. Keyes, of Jefferson County

Wis., has written to the Hon. Charles Billinghurst, a Republican member of Congress from that State, requesting Mr. B. to procure for him an office-any office in fact-under the Buchanan Administration. At the same time Mr. Keyes avows himself a Republican, and says he is compelled to resort to this course to support his family. The family of Mr. Keyes

have our profoundest sympathy. Their prospects of support must be small in-It is difficult to believe that in the pre-

sent state of politics, an opponent of the Administration should expect an office at its hands. The time for such events has gone by. And yet this Mr. Keyes would seem to be in earnest. But whatever may be thought of his verdancy, there can be no doubt that his application is the most convincing evidence yet presented of hard times in the Western States. When Republicans are driven to beg office of Buchanan to sustain their families, things must have touched bottom .- N. Y. Times.
