## FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has sure and perfectly safe in its operation. This has been prepared to meet that demand, and an exten-sive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowgriping pain and revulsion in the system as to more | much it will do: than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or decangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applieable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languer and Loss of Appetite, Listicsaness, Irritability, Bilions Headache, Bilions Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Serofula and Scurry, Colds with soreness of the body, Uleers and impurity of the blood, Irregularities; in short, any and every case where a purgative is required.

They have also produced some singularly suceessful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stemach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bosst into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, reno-Hence an occasional dose is advantageous, even | may be desired in our line. though no serious derangement exists; but un necessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will leasant to take, and being purely vegetable, no vorable terms as any house in the West. narm can arise from their use in any quantity. COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION. THIS remedy has won for itself such notoriety

from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affect tions of the pulmonary organs which are incident to our climate. Not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHIL DREN it is the pleasantest and safest medicine that As it has long been in constant use throughout

THE GREAT WONDER OF THE NINETEENTH CENTRY Professor Wood's HAIR RESTORATIVE.

Says the St. Louis, Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are useless puffery from the press: "BATH, MAINE, Jan 20, 1858. Prof. O. J. Wood, & Co.

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative. I was induced to make apolication of it upon my own bair, which had become quite gray, probably one-third white; my whiskers were of the same charac ter. Some three months since I procured a bottle of hair restorative, and used it. I seen found it was proving what I had wished. I used it about twice a week. have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and gace, and my hair has resumed its original color, and I McMEHAN & BALLANTINE, BROWN GODDIN & CO am now sixty years old my good wife at the age of fifsy-two, has used it with the same effect. The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use

as per directions, will not have occasion to contradict my tatements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns Any use you may make or the above, with my name attached, is at your service, as I wish to preseyve the beauties of nature in others as well as myseif. I am, truly yours A. C. BAYMOND.

BALTIMONE, Jan. 23, 1858. Professor Wood-Dear Sir: Having had the misfortune to loose the best portion of my bair, from the ef fects of the Yellow Fever in New Orleans in 1854, I was induced to make e trial of your preparation, and found it to enswer at the very thing needed. My hair is now thick and glessy, and no words can express my obligation to you in giving to the afficied such a treasure. FINLEY JOHNSON.
