THE GLOBE,

The Official Paper of Congress, I shall publish the Daily Globe, and the Congressional Globe, and Appendix during the next session of Congres. The Daily Globs will contain a report of the debates in both branches of Congress, as tahen down by reporters, equal at least, to any corps of short band writers in this or any other country. When the derntes of the day do not make more than forty-five columns, they shall appear in the Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles as passing events suggest.
The Congressional Globe and Appendix, will con-

tain a report of all the debates in Confress, revised by the Speakers, the Messages of the President of BARGAINS!! the United States, the Annual reports of the heads of the Executive Departments, the Reports of com-mittees of Congress on important subjects of gen-oral interest, the Laws passed during the session, and copious indexes to all. These will be printed o a double royal sheet in book form, royal quarto size, each number containing sixteen pages, averaging 2,397 words per page. The whole will make between 1,700 and 2,000 pages. It is believed that no book has ever been published at so low a rate. Last year I advertised in the Daily Globe for six months, and in about one hundred other newspapers in the United States, a reward to any person of two hundred and forty-five dollars, who would produce a book published at so low a rate, and none was produced. The large number of copies subscribed for by Congress enables me to afford the debates to subscribers so cheap.

The Congressional Globe and Appendix pass free through the mails of the United States, as will be seen by reading the following joint resolution pasned by Congress August 6, 1852 :

Joint Resolution Providing for the Distibution of the Laws of Congress and the Debates Thereon: With a view to the cheap circulation of the laws of Congress, and the debates contibuting to the true

interpretation thereof, and to make free communi- NEMAHA. ention between the representative and constituent Re it resolved by the Senate and House of Representatives of the United States of America in the Congress assembled, That from and after the present session or Congress, the Congressional Globe and Appendix, which contain the Laws and the dobates thereon, shall pass free through the mails, so long as the same shall be published by order of Congress: Provided that nothing herein shall be construed to authorize the circulation of the daily

Globe, free of postage. Approved, August 6, 1852.
TERMS:
For a copy of the Daily Globe 4 months \$3,00 For a copy for a less time (per month) 1,00
For a copy of the Congressional Globe and

I cannot afford to exchange with all the newspa-pers that desire the Globe, but I will send the dai-Globe during the Session to all who shall publish this prospectus three times before the first Monlay in next ecember. Those who publish should send their papers containing it to me, marked with a pen, to direct attention to it. The Congressional Globe and Appendix will be stereotyped, and therefore, I shall be able to send the back numbers for this session to all who may subscribe after the ses-

sion commences; but if the first edition shall have been exhausted before the subscription money is reeived, I shall charge one dollar additional per copy, to pay the expense of putting the plates on the press. Subscriptions should reach me as early as the first week in ecember, to insure complete copies at the rices advertised abeve. JOHN C. RIVES.

September, 29, 1859. A History of all Religions and Government of the Religious Denominations in Europe and the United States,

With Biographical Sketches of Eminent Divines, by Samuel M. Smucker, LL, D. Published by Buane Rulison, Quaker City Publishing House, 33. South Third Street, Philadelphia. The subject of Religion and the Doctrines of sects must always have an absorbing interest for the thoughtful observer, and a work which affords the sired information, in a convenient and accessible orm, at a moderate price, has been urgently deman-

ded, and will be sought for with avidity, and must amand a large sile. In the present work, the origin, development octrinal belief, Church Government and peculiarities of over eighty different religious seets, are treated in a style clear, compendious and accurate, and will afford all the information which might be propared with great difficulty and expense, and much labor and research, from the larger polemical works

and encyclopedius.

Dr. Smucker has evidently prepared this work with much care, and it exhibits great ability and learning. The articles on the different religions are very impartially written, and show the careful study of an unprejudiced and sound mind; and the larportance and value cannot be too highly estimated of such superior and unbiassed effort in a work of this kind, as too often, those pretcuding to give con rept information upon such subjects are, prejudiced favor of some particular sects or denominations. Mr. Rulison has brought out this great work in a very handsome form, and the public is indebted to im for a very valuable, instructive and useful book. The price, \$1,00, is remarkably low for such a work. and in order that it may have a rapid and extensive reulation, he will send it to any address, accompaled with a valuable Gift, on the receipt of the price nd twenty-five dents to pay postage. Mr. Rulison will send free, on application, his new onlarged and revised Catalogue of Books and Gifts, Can be had at our Store, and on terms as 01 containing all information relative to the establish

ment of Agencies in the Gift Book business. Ad-DUANE RULISON. Quaker City Publishing House, 33, South Third treet, Philadelphia, Pa. NOTICE.

Corn and Cob Crusher, and

Corn Sheller. Three valuable machines in one! This is a new inention, and one that is well wusthy the attention of the public, the farming portion in particular; complu tion has been promounced by those who have the Mili n use to one of the best ever made, and the great value of this combination will be readily seen when the fact is considered that each machine makes a necessity or the other. Thus: a Mill makes a necessity for a heller, and Sheller for a Mill, etc. Being adapted to the use of the farmer, by horse. power, as a farm implement it scarcely has an equal in

It is also adapted to steam and water or wind power,

t is capable of grinding from five to ten bushels for

our, requiring from two to three horse power, accord-

ng to the quantity and quality of the work doce. It grinds sufficiently fine for family use, making a superior article of Meal, leaving it round and fively, which is indispensable for light bread or puddings .--Everyone will be astonished at the difference in this respect in favor of the meal made in this Mill compard with that made in any stone mill. They have only o make the trial to be convinced It will shell fifty to sixty bushels per hour, and will rind and shell at the same time. It will crush fifteen to twenty bushels of even and ob per hour, and it will crush and grind at the same It is light and portable, weighing thre hundred pounds and occupying a space of less than two feet by three The grinding surfaces are very durable, being made of izon as hard as hardened cast sizel, and when worm o-o can be replaced without the aid of a mochanic, at the rifling cost of one dollar and fifty cents, thus overcomng entirely the great objection to from mills. Partiesar attention is called to this feature in the Mill, as the difficulty of replacing grinding suchons in from mills when worn out is an objection to them that has siways been urged with great force, and has bud the effects

to prevent thousands from purchasing, who otherwise would be glad to do to. That objection is entirely done away with this mill. Millers will do well to examine this Mill, there heing no doubt that they will find it for their interest to dopt it for a feed mill; as the grinding surfaces are relaced at a much less cost than is required to keep a tone Mill in order, to say nothing of the great saving An examination of this mill is esquestly solicited, as must be seen in operation to be fully understood and Cards of direction are attached to each toill, which till enable any one to set up and operate them without Price of mill complete \$75.
