Brownville Steam Ferry!

BEST CROSSING OF THE MISSOURI RIVER. The Route from Brownville to Ft. Kearney, and from thence to California, is the nearest and most practicable.

JOHN CODINGTON & CO. ANNOUNCE to the Traveling Public that they are now running as a Ferry across the Missouri River, an entirely new, substantial and commodious STEAM FERRY BOAT.

Which arrangement will secure a certain and safe passage at all times and in all kinds of weather. The Proprietors do not assert boastfully, or for the purpose of gaining custom merely, but are governed by facts, when they say this is the best crossing of the Missouri River in Nebraska, and when they say the route from Brownville to Fort Kearney and from thence to California is the nearest for emigrants they refer to the map of the Country; they are warranted in saying it is the shortest route by persons who have traveled it.

We claim therefore that this crossing and route build out peculiarly favorable accommodations, to persons going to California, and solicit their patronage. Notwithstanding our superior arrangements for a safe and speedy crossing, our charges are the same as other Ferries in Nebraska, all being regulated by Legislative enactments.

Recollect that with our facilities of Power, no kinds of weather will prevent our Boats from making regular trips at all hours, with the most perfect safety. We will be in readiness to receive foot passengers at all times of night.
