Lectures in Brownville.

The lecture last Thursday evening, was elivered by Dr. Annold. His Subject as the "Immortality of the Soul." He argued that not only Revalation, but Profane History and Nature furnished uncontrovertable evidence that the mind of man was immortal. It was taught by the great men of all nations from the most temote antiquity. The Pyramids of Egypt had been built-not, as was once supposed, epsichers of monarchs, but for the perormance of certain rites and ceremonies hat could not be done in ordinary Temes, the object of which was to teach and repetuate the doctrine of the Immortaly of the Soul. In one of the Pyramids ras written in hieroglyphics, along with prefutably corroborating Scripture.

We have not space to give a complete nopsis of the discourse. The Doctor's putation as a lecturer, drew a crowded cuse. He has few equals in this far-Science and in classic lore.

"Soft delusion."

The weather for the past week, up to yesterday, has been delightful-perfect spring weather. Many flattered themselves with the idea that the natural bridge across the "Big Muddy" was bound to "go," and Spring was at hand. "Soft delusion!" Yesterday "it blew, and then it snew." This morning we have a twelve or sixteen-inch snow. Now for sleighing, hunting and the like.

THE GLOBE

The Official Paper of Congress.

I shall publish the Dully Globe, and the Congressional Globe, and Appendix during the next session of Congres. The Dully Globs will contain a report of the debates in both branches of Congress, as taken down by reporters, equal at least, to any corps of short hand writers in this or any other country. When the debates of the day do not make more than forty-five columns, they shall appear in the Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles as passing events suggest.

The Congressional Globe and Appendix, will contain a report of all the debates in Confress, revised by the Speakers, the Messages of the President of the United States, the Annual reports of the beeds of the Executive Departments, the Reports of committees of Congress on important subjects of general interest, the Laws passed during the nession, and copious indexes to all. These will be printed on a double royal sheet in book form, royal quarto size, each number containing sixteen pages, aver-The Official Paper of Congress.

NEW VOLUME-NEW TYPE For twenty years the "Cleveland Plain Dealer" has been owned and controlled, Published and Edited by the same individual. It has never missed a publication day nor scratched a Democratic Ticket. It has fought its way single-handed against all op-position, until it has gained a National circulation and a National reputation. From Maine to Cali-fornia the Plvin Dealer is known and read, and it

never was in so good a condition pecuniarily, or in better pluck, politically, to fight the battles of Demicersey than now. For the coming year it will be particularly devoted to Popular Sovereignty!

It has against high authority, dared to advocate the right of "the people of a territory as well as a State, to regulate their domestic institutions in their own way," and it will continue to do so against said high authority. "the world, the flesh and the usid high authority, "the world, the flesh and the devil." Against all Lecompton Constitutions, slave codes, and the re-opening of the Slave Trade, this Paper is devotedly dedicated from this time, henceforth and forever!

Arnold's Combined Grinding Mill Corn and Cob Crusher, and Corn Sheller.

Three valuable machines in one ! This is a new invention, and one that is well worthy the attention of the public, the farming portion in particular ; com ation has been pronounced by those who have the Milin use to one of the best ever mode, and the great value of this combination will be condity seen when the fact is considered that each machine makes a necessity for the other. Thus: a Mill makes a necessity for a Sheller, and Sheller for a Mill, stc. Being adapted to the use of the farmer, by horse power, as a farm implement its carcely has an equal in

It is also adapted to steam and water or wind power. It is capable of grinding from five to ten bushels per hour, requiring from two to three horse power, according to the quantity and quality of the work done.
It grinds sufficiently fine for family use, making a superior article of Meal, leaving it round and itvely, which is indispensable for light bread or puddings.— Every one will be astonished at the difference in this respect in favor of the meal made in this Mill compared with that made in any stone mill. They have only to make the trial to be convinced. It will shell fifty to sixty bushels per hour, and will grind and shell at the same time.

It will crush fifteen to twenty bushels of corn and ob per hour, and it will crush and grind at the same It is light and portable, weighing thre hundred pounds and occupying a space of less than two feet by thee The grinding surfaces are very durable, being made et ron as hard as hardened cost steel, and when worn ocan be replaced without the aid of a mechanic, at thus

rising cost of one dollar and fifty cents, thus overcom ing entirely the great objection to iron mills. Particufar attention is called to this feature in the Mill, as the difficulty of replacing grinding surfaces in Iron. mills when worn out is an objection to them that has always been urged with great force, and has had the effect to prevent thousands from purchasing, who otherwise would be glad to do so. That objection is entirely done way with this mill. Millers will do well to examine this Mill, there being no doubt that they will find it for their interest to adopt it for a feed mill, as the grinding surfaces are fee

An examination of this mill is earnestly solicited, as t must be seen in operation to be fully understood and Cards of direction are attached to each mill, which will enable any one to set up and operate them without State and county rights for sale on reasonable terms. The subject of Religion and the Doctrines of sects

octrinal belief, Church Government and peculiarities of over eighty different religious sects, are treated in a style clear, compendious and accurate, and will afford all the information which might be procured with great difficulty and expense, and much

and encyclopedias.

Dr. Smucker has evidently prepared this work with much care, and it exhibits great ability and learning. The articles on the different religious are portance and value cannot be too highly estimated of such superior and unbiassed effort in a work of this kind, as too often, those pretending to give cor-rect information upon such subjects are prejudiced Mr. Rulison has brought out this great work in a very handsome form, and the public is indebted to him for a very valuable, instructive and useful book. The price, \$1,00, is remarkably low for such a work. and in order that it may have a rapid and extensive nied with a ve' . ole Gift, on the receipt of the price
