Miscellaneous.
(From the Nebraska Farmer.)
Eggs in Winter.
Why not have eggs in abundance during the winter as well as summer? This question will here be clearly solved:— 1st. The fowls cannot obtain insects' meat and food of that nature in sufficient quantity. 2d. They cannot obtain lime, pounded brick, &c., to form the shell. 3d. They have not, as a general thing, facilities for laying as they do in summer.
