PROSPECTUS OF THE ROCKY MOUNTAIN NEWS,

THE NEWS w Il enter upon its second year early in the coming spring, at which time it Will be enlarged to nearly double its present size, and correspondingly improved in many respects. It was the first and is at the present time the only newspaper permanently established in the Rocky Mountain Gold Region. Transported to this country in the face of a disheartened re-turning emigration, with a tide almost irresistable, it was set up beneath the pelting of winter storms, in the midst of noisy mobs howling curses, and threats of ven neance against every person and thing that ventured one encouraging word for the country; at a time when the man was fortunate who knew one day from whence his meals for the next would come; it was successfully established, and has since continued in the even tenor of its way fearle-s and untrammeted. The News was the first to herald to the world the surprising richness of the

Rocky Mountain Gold Fields for which the abuse of the Eastern press was heaped up-

en it without stint; but time has satisfactorily proven and verified its every statement and prediction, and the News stands to-day the most noted and universally quoted newspaper in the United States. Already it has a circulation in every State of the Union save bour, and in both the Canadas, Arrangements are being perfected for special and reg-6 00 ular correspondence from all the important cities of the East, and the personal acquaintance of the proprietors throughout the mining regions will ever secure for it parts of the gold fields.
