To those in the States contemplating going to the Nebraska and Kansas GOLD MINES, The undersigned desire to say, and in so doing will

Crossing the Missouri river at Brownville, and outfitting at, and starting from that point, not to be found at any other place on the Missouri River. In the first place, on both sides of the river are large extents of bottom lands in which grass makes a much earlier start than on the uplands, and is much more abundant, being inexhaustible the entire season. Here, then, is a desirable place to recruit stock before starting on the Plains. Stock The Brownville Steam Ferry boat, being the best for the final settlement of the estate of Oliver P. Ed. can also be purchased here on very favorable terms on the River, offers peculiar inducements for cross- ley deceased, late of said county, at my office, is specing at this point. ments, &c., &c. The Route from Brownville to the Mines is uniothers, to be superior in every respect. Brownville is about midway between St. Jo. and Omaha. As to distance, an examination of the man is all that to distance, an examination of the map is all that ing of a rich humorous character Nick-Nax has at is necessary to prove to any one that it is nearer | tained its third year, and is growing in popularity from here to the mines than from any other point on the Missouri. On this route wood and water abound the entire distance, while on many others. wood has to be hauled for many days. The foregoing facts are fully and satisfactorily esablished by the immense travel of last year, and those who adopt it the present season will have no

cause to regret having done so. Therefore Cross the Missouri River at and start from Brownville.
