GOLD MINES,
 The undersigned does hereby, and in so doing will not practice deception; there are advantages to be secured in
 Crossing the Missouri river at Brownville, and outfitting at, and starting from that point, not to be found at any other place on the Missouri River. In the first place, the land is the first and largest extent of bottom lands in which grass makes a much earlier start than on the uplands, and the water is abundant and of the best quality throughout the entire season. Here, then, is a desirable place to recruit stock before starting on the Plains. Stock can also be purchased here on very favorable terms, and at a much lower price than elsewhere. Everything desirable can be procured at Brownville, such as Provisions, Clothing, Mining Implements, &c., &c.

 An accident will happen in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Parlor, Dress, and Kitchen Stoves, and household articles in general, and it is not a household article that is without its uses. It is no longer a necessity for limping chairs, splintered veneers, headless tools and broken cradles. It is just what is needed for the repair of all these articles, and is a most valuable preparation in use. It is chemically held in solution, and is not dried, and is of the quality of the best cabinet-makers' glue. It may be used in the place of ordinary glue, being just as much superior. It is sold in 1/2 lb. and 1 lb. tins. N. B.—A Rush accompanies each bottle. Price, 25 Cents. Address: Henry C. Chester, 200 N. Y. St., New York.
