Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiased, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scroftlous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children

unto the third and fourth generation; " indeed,

it seems to be the red of Him who says, "I will visit the iniquities of the fathers upon their children." the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses tions not only suffer from scrofulous complaints, but they have fur less power to withstand the attacks of other diseases; consequently vast numbers parish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly this scrofulous contamination; and many destructive diseases of the liver, kithreys, brain,

and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renevate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remody which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other offections which arise from it, such as Enuprive and Skin Diseases, Sr. Anthony's Pine, Rose, or Enverses, Principles, Positions, BLOTCHES, BLAINS and BOILS, TUMORS, THITTER and Salt RHEUM, SCALD HEAD, RINGWORM, RESUMATION, SYPHILITIC and MERCUMAL DIS-BASES, DROPSY, DYSPERSIA, DEULLTY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED ON INFORM BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Billous Hendache, and Billious Fevers, Indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Minsuratic Countries.

We are enabled here to offer the community a

remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Curs" expels the missmatic poison of Faven and Agus from the system, and prevents the development of the disease, if taken on the first approach of its premonitors symptoms. It is not only the best remody ever yet discovered for this class of seventhints but also the observed. of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protective. tion. A great superiority of this remedy over any other ever discovered for the speedy and certain ours of Intermittents is that it contains no Quinime or mineral, consequently it produces no quinime or other injurious effects whatever upon the coratitation. Those cured by it are left as healthy as if they had never had the disease. Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disor-ders arise from its imitation, among which are Neuralgia Rhammatism, Goot, Heastiche, Blind-ness, Toothache, Earache, Catarrh, Asthma, Palpitetien, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Code, Puralysis and Devaugement of the Stomach, all of which, when originating in this cause, put on the intervilent type, or become periodical. This "Cura" expels the pomon from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temperarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accomulate in sufficient quantity to ripen into discase. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords. Prepared by Br. J. C.
