LOOK TO YOUR INTERESTS! STEAM FERRY BOAT

Brownville, ___ Nebrasha.

To those in the States contemplating going to the Nebraska and Kansas GOLD MINES. The undersigned desire torsy, and in so doing will

not practice deception; that there are advantages to be secured in Crossing the Missouri river at Brownville, and outfitting at, and starting from that point, not to be found at any other place on the Missouri River. In the first place, on both sides of the river are large extents of bottom lands in which grass makes a much earlierstart than on the uplands, and is much more abundant, being inexhaustible the entire season. Here, then, is a desirable place to recruit stock beforesterting on the Plains. Stock can also be purchased here on very favorable terms The Brownville Steam Ferry boat, being the best on the River, offers peculiar inducements for crossing at this point. It is large and commodious; with powerful machinery, which enables the proprietors to ferry emigrants and others in the most expedi-

For Outfitting We undertake to say that the ousiness men of Brownville are as well prepared to serve those wishing supplies, with a superior quality and on as favorable terms as can be found elsewhere. Everything desirable can be purchased in Brownville, such as Provisions, Clothing, Mining Imple-

ments, &c., &c. The Route from Brownville to the Mines is universally admitted by those who have traveled it and others, to be superior in every respect. Brownville is about midway between St. Jo. and Omaba. As to distance, an examination of the map is all that is necessary to prove to any one that it is nearer from here to the mines than from any other point on the Missouri. On this route wood and water abound the entire distance, while on many others. wood hasto be hauled for many days.

The foregoing facts are fully and satisfactorilyestablished by the immense travel of last year, and those who adopt it the present season will have no

cause to regret having done so. Therefore Cross the Missouri River at and start from Brownville. JOHN CODDINGTON & CO., Proprietors Steam Ferry Boat.
