STEAM FERRY BOAT
AT
Brownville, Nebraska.

To those in the States contemplating going to the Nebraska and Kansas

GOLD MINES,
The undersigned desire to say, and in so doing will not practice deception, that there are advantages to be secured in
Crossing the Missouri river at Brownville,
commencing at, and starting from that point, not to be found at any other place on the Missouri River. In the first place, on both sides of the river are large extents of bottom lands in which grass makes a much earlier start than on the uplands, and is much more abundant, being inexhaustible the entire season. Here, then, is a desirable place to recruit stock before starting on the Plains. Stock can also be purchased here on very favorable terms.

The Brownville Steam Ferry boat, being the best on the River, offers peculiar inducements for crossing at this point. It is large and commodious; with powerful machinery, which enables the proprietors to ferry emigrants and others in the most expeditious manner.

For Outfitting

We undertake to say that the business men of Brownville are as well prepared to serve those wishing supplies, with as superior quality and on as favorable terms as can be found elsewhere. Everything desirable can be purchased in Brownville, such as
Provisions, Clothing, Mining Implements, &c., &c

The Route from Brownville to the Mines is universally admitted by those who have traveled it and others, to be superior in every respect. Brownville is about midway between St. Jo. and Omaha. As to distance, an examination of the map is all that is necessary to prove to any one that it is nearer from here to the mines than from any other point on the Missouri. On this route wood and water abound the entire distance, while on many others wood has to be hauled for many days.

The foregoing facts are fully and satisfactorily established by the immense travel of last year, and those who adopt it the present season will have no cause to regret having done so. Therefore
Cross the Missouri River at and start from Brownville.

Oregon Nursery.
We beg to call the attention of the public to the Floral department of our Establishment, which we now have in full and successful operation. Our stock of Greenhouse, bedding and Flowering Plants, Shrubs, &c. consisting in part of Geraniums, Verbenas, Dahlias, Petunias Double Heliotropes, &c., we offer to sale the coming Spring at lower prices than usual, thereby placing them within the reach of all. Most of these are all flower all Summer, and for size, color, form, and fragrence of flower cannot be excelled.

Having the advantage of a first class propagating house and its appendages, which affords us facilities to increasing our stock to meet any demand, parties should have no fears of getting what they want by handing in their orders early.

We attend to the Propagating Department ourselves and warrant every article purchased of us to be good, strong, healthy well rooted plants, and true to name.

Our descriptive and priced catalogues will be out in April, and will be forwarded by mail to all applicants.

OREGON EMPIRE PLOW WORKS
TO FARMERS
Of Nebraska and N. W. Missouri:

AGAIN I would call the attention of the farmers of Nebraska and Missouri, to the fact that I have on hand and am constantly manufacturing, at my Plow Factory, in Oregon, Mo., wagons, and every pattern of plows, to-wit:

PRAIRIE PLOWS,
One and Two Horse Plows,
Shovel Plows,
Hoes, Harrows,
Corn Planters,
And Harrow Teeth

together with everything in this line used by a farmer. I take the responsibility of saying that my two-horse plows will do better work, in stubble or any kind of rough ground, than any I manufactured or sold in this upper country. My two-horse and prairie plows will be sold, for cash on terms, such as will place them in the reach of every farmer.

My Plows can be obtained from my agent at Iowa Point, K. T., Brownville, Nodaway county Marietta, Rush Bottom, Holt county, Brownville, N. T. and Forest City. MARTIN HOFFMAN.

SUGAR CANE MILLS AND EVAPORATORS
I HAVE made arrangements with DOUGLAS BROTHERS, Zanesville, Ohio, the only establishment in the United States, engaged exclusively in the manufacture of Sorgho Sugar Mills, Evaporators, &c., by which I can furnish the farmers in this region with those much needed articles. The Douglas Sugar Mill and Apparatus were awarded the First Premium at the Ohio State Fair; and the highest honor at the United States Agricultural Society, a silver medal. I am confident Farmers of Nebraska, Kansas, Northern Missouri and Southern Iowa can find no other to suit them better either in price or otherwise.

Moffat's Life Pills AND PHŒNIX BITTERS.
These medicines have now been before the public a period of thirty years, and during that time maintained a high character in almost every family Globe, for their extraordinary and incredible restoring perfect health to persons suffering under by every kind of disease to which the human liable.

The following are some of the distressing human diseases in which the
VEGETABLE LIFE MEDICINES
Are well known to be infallible.

Dyspepsia, by thoroughly cleansing the blood and stomachs, and creating a flow of pure healthy instead of the stale acrid kind; *Flatulency*, Dyspepsia, Headache, Heartburn, Headache, Restlessness, Anxiety, Languor and Melancholy, which are general symptoms of Dyspepsia, will vanish in consequence of its using.

Costiveness, by cleansing the whole intestinal tube with a solvent process and without all violent purges leave the bowels natural in a few days.

Fevers, of all kinds, by restoring the blood to a healthy circulation, through the process of perspiration such cases, and the thorough solution of all obstruction in others.

The Life Medicines have been known to cure Rheumatism permanently in three weeks, and Gout in that time by removing local inflammation from the cles and ligaments from the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; they operate most directly on these important organs, and hence have never found a certain remedy for the worst cases of dropsy.

Also *Worms*, by dislodging from the intestines and bowels the slimy matter to which these creatures adhere.

Scurvy, Ulcers and *Inveterate Sores*, by forcing purity which these Life Medicines give to the blood and all the humors.

Scorbutic Eruptions and bad complexions, by the alternative effects upon the fluids that feed the skin, the morbid state of which occasions all eruptions, pimplets, sallow, cloudy, and other disagreeable complexions.

The use of these pills for a very short time, will as an entire cure of Salt Rheum and a striking improvement in the clearness of the skin. Common Colds, Influenza will always be cured by one dose or by in the worst cases.

PILES.—The original proprietor of these medicines was cured of piles of thirty-five years standing, by use of the Life Medicines alone.

Fever and Ague.—For this scourge of the Western Country, these Medicines will be found a sure, safe and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—try them, be satisfied and save.

Bilious Fevers and Liver Complaints.—Costiveness, inability, loss of appetite, and Diseases of Females, these Medicines have been used with the most beneficial results in cases of this description. Kings Evil, sores, ulcers in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Nervous debility, Nervous Complaints of all kinds, Palpitation of the heart, Painter's Colic, are speedily relieved.

Mercurial Diseases.—Persons whose constitutions have become impaired by the injudicious use of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla. will find these Medicines a perfect cure, as they will eradicate from the system all the effects of

1861 McCORMICK'S Reaper & Mower
Manufactured by
C. H. McCORMICK & BRO.
CHICAGO, ILLS.

Twenty-five Thousand Sold During the last six years.
An Average of over 4,000 each Year. Sales increased from 1600 in '54 to 5,000 in '61.

As a Reaper, the "McCormick" has been before the American public for the last twenty years, and during that time has gained a reputation which is "*World-Wide.*" Notwithstanding the yearly increasing competition, and the host of inventors engaged in the development of Reaping Machines, the "McCormick" leads the van—the acknowledged superior of all in the march for practical improvements.

The representations made by other manufacturers that the McCormick was "once" a noted Reaper, but is now *antiquated*, is simply ridiculous, as the increasing demand will prove. No single establishment in the WORLD, manufactures so large a number of these implements, and none expends equal sums of time or talent in *reliable* improvement.

Many changes have been effected during the season, and for 1861, the "McCormick" is presented with greater attractions than ever before. As a heavy

SIMPLICITY, STRENGTH AND DURABILITY

commend it to the farmer, while its capacity for work, with *economy of power*, give it the preference over all others.

The connecting the frame, thus securing a more perfect balance to the machine: the position of the raker, in the rear of the driver, thus placing the weight where it should be, and relieving the team of a part of the machine; the decreased weight of the slight indentation of the sickle, the Castor wheel, and other improvements added, have materially increased the direct draught, and so obviated the objection of draught that many assure us that it does not exist. The draught of the Reaper is so light that in numerous instances the large four-horse machine is worked with but two horses.

As A Mower,

The machine of 1861 will be found fully equal to any test that it may be submitted to. The slight indentation of the Sickle, its lightness and combination with the beam and fingers, allows an increase of motion not practicable in other machines, thus enabling us to *a good work*, with a slow team often, even working well. Our

Improved Guard and Patent Clearer

effectually prevents clogging, no matter what the condition of the grass, while our new divider parts separates badly lodged and tangled clover or grass, where other machines fail.

There is also a great advantage in our serrated sickle edge over the smooth, as it does not require sharpening so often, thus saving time. Our Sickle will frequently run through an entire harvest without grinding, while the smooth edge must be ground once each day, if not oftener. With a smooth edge the draught increases as the knife becomes dull. Our draught is uniform, and in repeated trials during the season of 1860, proved far lighter than single Mowers, cutting at the same time from twelve to eighteen inches wider.

Our Mower can be used with or without the reel, this is important, and without the reel, weighs but about 670 pounds.

In addition to the very liberal warrantee given to all purchasers, we would say as heretofore, that farmers who may desire it, are at liberty to work our machine through the harvest, with any other, and keep, and pay for, the one preferred.

Pamphlets with full description of improvements, testimonials, &c., can be had by application to
