"The Union."-Two weeks ago we noticed the issue of the first number of the "Aspinwall Union," Aspinwall, Nebraska; J. H. Maun, publisher; Dr. A. S. HOLLADAY and J. H. MAUN, Editors. Last weak "The Union," same publisher and Editors, made its appearance, printed cause for the sudden change from Aspinwall to Brownville, we know not. But opine there was a sudden change from the notion, "had the Indian title been extinguished at this place [Aspinwall] there never would be a Brownville," &c. We are glad to see a change in location eradicates that notion. We are also glad to see a very decided change in the tone of the Editors' sentiments in regard to the unfortunate condition of the country. The Brownville issue comes out boldly, manly and patriotically in support of the country; declaring that "It matters not with us who is President, Democrat, Whig, Know Nothing. or Republican, we are for our country, first and last, now and forever !" 'That's the doctrine gentlemen. It is the only position now to be taken by all who are not in favor of the traitorous designs of the rebels, who are warring secured for, and transmitted to us by our it from their hands. Sad Casualties. - A man, named Thomas, was drowned in the Little Nemaha, near Melvin's Mill, on Saturday last. He, with others, were crossing with ex-teams, when the boat capsized. On the same day, a Mr. Nott of Tecumseh, was ran over by a loaded wagon, and died on Saturday. He was haul ing goods from Brownville to Tecumseh and when about two miles from this place he fell off of the wagon and was crushed in such a manner as to die the next day. He was under the influence

As the cultivation of the sugar cane in the West has proved an entire success, and as an extraordinary amount will this season be planted, it is evident farmers must have a more expeditious and economical mode of manufacturing it. Those who have been using the old wooden mills can compare the result with that above and see that the price of a mill is saved in a single season by the use of an iron crusher Where it is not convenient for one farmer to purchase a mill, a neighborhood often clubs together when the cost to each is so trifling as not to be felt compared with the advantages derived. Farmers will do well to send in their orders early as it is desirable that the mills be shipped in the early part
