LOOK TO YOUR INTERESTS! STEAM FERRY BOAT

To those in the States contemplating going to the Nebraska and Kanasa GOLD MINES

not practice deception; that there are advantages

Brownville, Nebraska.

to be secured in Crossing the Missouri river at Brownville, and outliting at, and starting from that point, not to be found at any other place on the Missouri River. In the first place, on both sides of the river are large extents of bettem lands in which grass makes a much earlier start than on the uplands, and is much more abundant, being inexhaustible the entire season. Here, then, is a desirable place to recruit stock beforestarting on the Plains. Stock can also be purchased here on very favorable terms The Brownville Steam Ferry boat, being the best on the River, offers peculiar inducements for crossing at this point. It is large and commodious; with powerful machinery, which enables the proprietors to ferry emigrante and others in the most expedi-

We undertake to say that the business men of Brownville areas well propered to serve those wishing supplies, with a superior quality and on as fav-orable terms as can be found elsewhere. Everything desirable can be purchased in Browaville, such as Provisions, Clothing, Mining Imple-

ments, &c., &c. The Reute from Brownville to the Mines is universally admitted by those who have travaled it and others, to be superior in every respect. Brownville is about midway between St. Jo. and Omaha. As to distance, an examination of the map is all that is necessary to prove to any one that it is nearer from here to the mines than from any other point on the Missouri. On this route wood and water abound the entire distance, while on many others. wood has to be hauled for many days. The foregoing facts are fully and satisfactorilyestablished by the immense travel of last year, and those who adopt it the present season will have no cause to regret having done so. Therefore Cross the Missouri River at and start

from Brownville. JOHN CODDINGTON & CO., Proprietors Steam Ferry Boat.

BROTHERS, Zanesville, Ohio, the only establishment in the United States, engaged exclusively in the manufacture of Sorgho Sugar Mills, Evaporators, &c., by which I can furnish the far mers in this region with those For cultivation under g are, of the best sorts—Golden nuch needed articles. OREGON

TO FARMERS Of Nebraska and N. W. Missouri AGAIN I would call the attention of the farmers Nebraska and Missouri, to the fact that I have on hand and am constantly manufacturing, at my Plow Pactory, in Oregon, Mo., wagons, and every pattern of PRAIRIE PLOWS,

One and Two Herse Plows, Shovel Plows, Hees .Harrws.o Corn Planters, And Harrow Teeth Forether with everything in this line used by a farmer I take the responsibility of saying that my two horse plows will do better work, in stabble or any kimi of

rough ground, than any I manufactured or sold in this upper country. My two-herse and prairie plows will be sold, for cash on terms, such as will place them in the reach of every farmer.

My Plows can be obtained from my agent at Iowa Point, K. T., Brownville, Nodaway county, Marietta, Rush Bettern, Helt county, Brownville, N. T., and For-MARTIN BOFFMAM. N. B. All kinds of repairing done with neatness and dispatch, on liberal terms. Oregon, Mo., May, 1860.

Theodore Hill, Agent At Brownville, N. T., keeps on hand a general assort-

Brownville, May, 1800, Oregon Nursery.

We beg to call the attention of the public to the Floal department of our Establishment, which we now have in full and successful operation. Our stock of Greenhouse, bedding and Flowering Plants, Shrubs, Bar Tumblers, &c., consisting in part of Geraneums, Verbenss, Dah-Young Catalps, 4 to 6 feet \$4 per hundred; 5 to itas, Peloxes, Peoples, Relictropes, &c., we offer for sale the coming Spring at lower prices than usual, thereby Climbing Roses, Fragrant Honey Suckles, by placing them within the reach of all. Most of these plants flower all Summer, and for size, color, form, and fragrance of flower cannot be excelled. Having the advantage of a first class propagating house and its appendages, which affords us facilities for increasing our stock to meet any demand, parties sho'd have no fears of getting what they want by handing in heir orders early.
We attend to the Propagating Department ourselves,

and warrant every article purchased of us to be good, strong, healthy, well socied plants, and true to name, Our descriptive and prised catalogues will be out h House, and R. W. FURNAS, Parmer Office, Brownville, N. T. armour authorized Aments. All orders left with them will receive prompt sitestion.

B. H. BURCHES & CO.

P. S. Having forcing pits specially for the purpose we will have SWEET POTATOE plants for sale by the million, at reduced prices. E. H. B. & Co. million, at reduced prices. Oregon, Mo. Ecb. 1881 Feb 1861

OHIO NURSERIES TOLEDO, OHIO.

McCORMICK'S

C. H. McCORNICK & BROX CHICAGO, ILLS.

Twenty-five Thousand Sold During the last six years, An Average, of over 4,000 each Year. Siles line increased from 1600 in '54 to 5,000 in To

As a Reaper, the "McCormick" has been below the American public for the last twenty year, and during that time has gained a reputation which is "World-Wide." Notwithstanding the rearly a "World-Wase. Rotalitation and the host of inventor a gaged in the development of Reaping Machinea to "McCormick" leads the van—the acknowledge as perior of all in the march for practical item

The representations made by other manufacts that the McCormick was "onco" a noted have but is now antiquested, is simply ridiculous, as the in-creasing demand will prove. No single estates, ment in the WORLD, manafactures so larger a these implements, and none expends equal tops time or talent in reliable improvements. Many changes have been effected during the par senson, and for 1861, the "McCormick" is pursue

greater attractions than ever before. Avalled SIMPLICITY, STRENGTH AND DU. RABILITY

semmend it to the farmer, while its capacity to work, with economy of power, gibs it the preference over all others. The compacting the frame, thus securing a new perfect balance to the machine; the position of the raker, in the rear of the driver, thus placing the weight where it should be, and relieving the way. er parts of the machine; the decreased weight ad slight indentation of the sickle, the Carter who and other improvements added, have materially la sened the direct draught, and so obviated the misdraught that many assure us that it does not me wrist. The draught of the Resper is so light that in numerous instances the large four-hers making is worked with but two horses.

As A Mower,

The machine of 1881 will be found fully appl to my test that it may be submitted to. The dight indentation of the Sickle, its lightness and consnation with the beam and fingers, allows an increase of motion not practicable in other machine, the enablingus to do good work, with a a slow tean, aren, even, working well. Our Improved Guard and Patent Clemer. effectually prevents choking, no matter what he

condition of the grass, while our new divide point separates badly ledged and tangled clover or grass where other machines fail. There is also a great advantage in our serned sickle edge over the smooth, as it does not require sharpening so often, thus saving time, Our Siere will frequently run through an entire harvest sincut once grinding, while the smooth edge mustis ground once each day, if not oftener. With a made edge the draught increases as the knife become int. Our draught is uniform, and in repeated trick to-

ring the season of 1880, proved far lighter flarergle Mowers, cutting at the same time from teins to sighteen inches wider. Our Mower can be used with or without the mei this is important, and without the reel, weight but about 670 pounds. In addition to the very liberal warrantee gives to all perchasers, we would say as herutofore, that farmers who may desire it, are at liberty to work ar

keep, and pay for, the one preferred. Pumphlets with full description of improveness testimonials, &c., can be had by application to THEODORE HILL, Agent, April 18, 1861.

sachine through the harvest, with any other, and

MY Stock of native vines comprise all the retiable varieties with which I am acquainted. The dants have been produced with great care, under the most favorable circumstances for healthy development and surpass in excellency any that I have beeofere been able to offer. For the fall trade, only a limited supply of Unin Village, Lenoir, (Lincoln,) Pauline, Elsingburg, Taylor (or Bullitt,) and Allen's Hybrid is offered. Of

best Delaware layers, also, the supply is not large, but quality unequaled. The stock from Delaware, single eyes grown both in house and open air, is large and fine. For vineyard planting some strong vines, grafted on Catas-ba and Isabella stocks, are offered at a low prim-Very large layers of Dissa, Herbement, and Co-cord, grown with associal care for immediate bear-ing. Good layers of Anna, Rogers Hybrid, 12 kinds

also Clara, Cassidy, To Kalon, Rebreca, Miller's Louisa, Logan, Emily, Canby's August, Hadron, H. Prolifie, Cuyahoga, &c. A general assortment of foreign varieties for vi-Of Downing's Everbearing Mulberry the supply is not large, and a great part of the trees already

ordered. They are very vigorous, and the weel well grown and matured Wholesale descriptive list sent to those who wid to form clubs, on application. List also sent to dealers.
