formation of this double silicate. Of course, the more soil are stirred, the more their particles are exposed to the air, the more ammonia can be absorbed from the atmosphere. This power of soil to attract ammonia from the atmosphere is one principal cause of the well known benefit of summer plowing.

A Short Rule for Fretters. A little girl has been visiting me who was a fretter. She fretted when a friend visited and fretted when she was alone. She fretted when little girls came to see her, and fretted when they did not.
