Scrofula, or King's Evil is a constitutional disease, a corruption of the Civil action, Justice Court blood, by which this fluid becomes virtuely weak, and poor. Being in the circulation, it

pervades the whole body, and may burst out in disease on any part of it. No organ is free not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure sir, filth and filthy habits, the depressing vices, and, stitution, descending "from parents to children will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed ruption, which genders in the blood, depresses Given under my hand in the said county of Gago, the energies of life, so that scrofulous constitutions not only suffer from scrobulous complaints, but they have far iese power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this mint in the system. Most of the consumption which decimates the human family has its origin directly in this scrafulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are serofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must removate the blood by an alterative medicine, and in-Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the resour of the Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enuprive and Skin Diseases, St. Anthony's Fine, Rose, or Enystrelas, Pimples, Pustures, BLOTCHES, BLAINS and BOILS, TUMOUS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, STRULITTIC and MUNICURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEMILITY, and, indeed, ALL COMPLAINTS ARISING PROM VITTA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofuln is a degeneration of the blood. The particular purpose and virtue of this Sareaparilla is to purify and regenerate this vital fluid,

AYER'S

FOR THE SPEEDY CURE OF Intermittent Fover, or Fever and Ague, Remittent Fever, Chill Fever, Bumb Agne, Periodical Headache, or Bilious Headache, and Billious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Missmatic Countries.

We are enabled here to offer the community a remedy which, while it cares the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders provail. This "CURE" expels the missentic poison of Favan-AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if

they had never had the disease. Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are To John Hopkins and Asa H. Butler, You are here-Neuralgia, Rheumatism, Gout, Heavishe, Blindness, Toothache, Earache, Catarrh, Asthma, Pal-pitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cune" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Inter-
