were more "flush" than they had ever before been in the United States, there was hard from a certain portion of communive as much grumbling as ever about this "jimes" always "hard."

We do not mean to argue that hard times are not now upon us,

For many days they've wandered Around our Cottage door.

But even now it is not as bad as some people try to make out. The farmers as a class, are the greatest sufferers .-There never was a time in the West, when Mechanics, laborers and others, could buy their provisions cheaper than now. Groceries, it is true, are dear, but lay are not really a uncessary of life. And although the habit of using them, has, with muny, become almost a second proces, sull all enq practice retrenchment. If we could only persuade ourselves to adopt some of the simplicity of our forefathers in the way of diet-if we could stituted "mush and milk," as was generally done during the Revolution, and during, and for several years subsequent to wheat "on demand." the war of 1812-it would not only save in the community a vast amount of money but we would have better health; we would have more strength and energy, prolonged.

To farmers we would say that "the signs of the times," with regard to prices are encouraging. There is now a great exportation of grain to Europe. Merchants are beginning to find that there is not the surplus in the country that was supposed, and that surplus will soon be exhausted, when prices will rapidly rise. At Chicago potatoes are rising. The amount raised in Illinois and Wisconsin is very much smaller than was supposed. fifty cents a bushel in the Spring.

effectual Alteratics that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidots for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERA, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-PECTIONS, MERCURIAL DISEASE, DROPSY, NEC-RALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PERSIA AND INDIGESTION, ERYSIPELAS, ROSE or Sr. Astrony's Free, and indeed the whole class of complaints ari ing from Impunity of

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bull. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this throug's the natural channels of the boly by an alterative medicine. Clean to out the vitiated blood whenever you flad its impurities bursting through the skin in pimples, cruptions, or sore; clean a it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feeling; will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something

must go wrong, and the great machinery of life is disordered or everthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these endy But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Mo a of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests Hair and Tooth brushes, upon it. And we think we have ground for believing it has virtues which are irre-istible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on
