This Machine is constructed on an entirely new principle of machinery, possing many rare and valnable improvements, having been examined by the most profound experts, and pronounced to be SIM-PLICITY and PERFECTION COMBINED. The following are the principal objections urged

against Sewing Machines .-I.-Excessive fatigue to 4.- Incapacity to sew every description of the openitor. 2.-Liability to get out of material. 5.- Disagreeable noise order, 3 .- Expense, trouble and | while in operation. loss of time in repair-

The Empire Sewing Machine is Exempt from all these objections.
