NEW VOLUME.

On the seventh of September, 1861, THE NEW-YORK WEEKLY TRIBUNE commenced the wenty-first year of its existence; THE DAILY TRIBUNE being some months older and THE SEMI- The Cost is only about One-Third WEEKLY TRIBUAE semewhat younger. For more than twenty years this journal has labored in what its conductors have felt to be the cause of itu manity, Justice and Freedom, endeavoring to meliorate the condition of the oppressed and unfortunate to honor and useful exertion in whatever ephere, and, to promote by all moans the moral, intellectual and material advancement of our country. It has aimed to be right rather than popular and to espouse and commend to-day the truth that othess may not be willing to accept till tommorrow. In pursuing this course mistakes have doubtless been nade and faults committed; but having in all things neited our readers to think and judge for themselves rather than adopt blindly our own or others conclusions we beleive we may fairly claim for this journal the credit of having qualified its readers to detect and expose even its own errors. To develop the minds of the young by the most general thorough and practical Education and to oncourage and stimdate Productive Industry through free grants of Public Lands to actual settlers and cultivators and also through the protection of immature or peculiarity expesed brauches from too powerful foreign tien are among the aims to which this journal has adhered through good and bad report and which it steadfastly commends to American patriot-

em and philanthropy. As to the Civil War now devastating our country we hold it to have originated in a Kebellion more wanton, wicked, inexcusable, than was ever before known-a Rebellion in the interest of the few agains the many -- a Rebellion deergood to raise higher the walls of caste and tighten the chains of oppression. ilaving done all we could without a surrender of vi tal principle to avoid this War and witnessed the orbearance, meekness and long suffering with which he Federal Government sought to evert its horrors we hold it our clear duty, with that of every other citizen, to stand by the nation and its fairly phosen rulers and is second wito all our energies their efforts to upheld the Union, the Constitution and the supremacy of the Laws. And though the Rebellion has become through ururantion deception terrorism and spoilation fearfully strong we believe the American Republic for stronger and that the unanimous earnest efforts of loyal hearts and hands will insure its overthrow. But on all questions affecting the objects the scope and duration of this most extraornary contest we defer to those whom the Ameoican People have glothed with authority holding u-

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints: -

SCROFULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILITIC AP-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DESILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impunity of THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of

life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, Mr. Spanning, or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, antil the name itself is justly despised, and has become synonymous with imposition and cheat. Still to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for successfully resist extreme changes of all climates for believing it has virtues which are irresistible any length of time when applied to metals to which by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use roughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
