WAR NEWS.

Fort Henry Taken-Splendid Vic Expedition-Another Victory.

The latest intelligence from the Union armies are of the most cheering character, and indicate an onward movement in almost every direction.

From the St. Louis Democrat we gienn Fort Henry was taken yesterday P. M.

at four o'clock, after an action of one hour and five minutes.

I have just been aboard the gunboats, the fort four abreast in the following order: The Essex on the right, then the Cincinnati, Carondelet and St. Louis.

The fire was opened at one mile distance from the fort, and continued while the boats steadily advanced, until when the fort surrendered the boats were but 450 yards from the fort. The forward guns were the only ones used.

The rebel fire was directed principally at the flag ship-the Cincinnati. She received thirty-one shots, chiefly dameging her where not iron plated. Her her boats were completely riddled. Two of her guns were disabled. One was struck by 68-pounder on the muzzle .-Another thirty-two struck on her side and dented the iron.

The only fatal shot from the fort passed through just at the larboard front, killed one man instantly, carrying his head away, and wounding several others.

passing through her bulworks in front, struck a middle boiler and caused it to explode. Captain Porter was slightly Fort Henry, in Tennessee," scalded in the face and hands. The pilits were scalded to death in the pilot house, having no way of escape. Eight of the mem, including pilots, have died from scands.

The rebels fought heroically. All thar." their guus were disabled. Their rifled cannon exploded during the action.

Our boats, when close up, poured in the grane-shot with terrible effect. They fired no solid shot. The large force of ed before Gen. Grant could come up .-Conestoga-which have passed up the be caught at the bridge above.
