

OUR FLAG. Then up with our flag! All in honor on the air! Through our father's soul in his grave. They had hands that could strike, they had souls that could dare.

The news. We rejoice at being able to place before our readers the gratifying intelligence that our army has been again successful, and that the enemy's strong hold, Island No. 10, is in our possession at last.

We are indebted to E. B. TAYLOR, Editor of the Omaha Republican, for the following telegraph received this morning. The details of the capture we will give next week.

GLORIOUS! MORE GLORIOUS!! MOST GLORIOUS!!

THE BALL ROLLS.

THE ANACONDA STILL AT WORK. The God of Battle Still With Us.

ISLAND NO. 10 TAKEN.

6,000 PRISONERS.

100 Seige Guns Captured.

VICTORY COMPLETE.

OMAHA, N. T. April 10, '62.

Admiral Brownville. Island No. 10 is ours. The victory complete. General Pope crossed the Mississippi River at New Madrid on the 7th, and attacked the rebels in the rear, opposite Island No. 10. The rebels deserted their land batteries, and surrendered. We captured three Generals, 6,000 prisoners, 100 seige guns, several field batteries, and immense quantities of arms and munitions of war.

The War Tax—Diversion of the Legislative Expenses. It should be gratifying to our Delegate, to know that his course in regard to diverting the Legislative appropriation, meets with the approbation of his constituents at home.

From the Nebraska First. It is hardly worth while writing, as all news of importance will have reached you before this, but to have you and Dave Seigle know that I am still living, and likely to again be seen in Brownville and vicinity, I drop you a few lines.

The weather for a few days past has been anything but pleasant; although there is no snow on the ground, there is plenty of mud, and every low swampy place—for which the South is noted—is overflowed with water.

Washington, April 3. The N. Y. World says: Information from reliable sources says Beauregard had been outfanked at Corinth, and compelled to fall back, and that a heavy body of troops was between him and the Mississippi.

Washington, April 4. The New York Times correspondent telegraph to-night from Budd's Ferry, as follows: "Gen. Hooker's Division, Thursday, April 3.—A corps of picked men, belonging to the Excelsior Brigade, left Liverpool Point, under the command of Gen. Sickles, early on Tuesday

or the completion of the capital buildings, would meet the views of the people of Nebraska, we are quite sure. But to the question more directly.—Our friends of the Republican offers as one reason why this diversion should not be made, that it will relieve Shorter, Cobb, and Tiff, notorious rebels, and who are large land holders in this Territory. Grant that they are relieved. By relieving them of one dollar, we at the same time relieve the actual settler of at least ten dollars. In this wise: The speculator's lands are all wild, unimproved, while those of the settler's are all improved, and consequently valued at ten times higher than those of the speculator. Surely it is not policy, wisdom or good sense to oppress ourselves in order to make a few non-resident rebels pay a few dollars tax.

The Republican is further disposed to censure Mr. Daily, for asking Congress to do for us what the last Legislature failed to do, claiming that because the Legislature failed to express itself in favor of the movement, the people did not so wish. We need not remind the Editor how it was that the Joint Resolution failed to pass the Legislature, or say more to our readers than, that its defeat was accomplished by the "tricks of the trade."

Nine-tenths of the last Legislature were in favor of memorializing Congress to do just what Mr. Daily has asked, and what the House has done, and had there been no "outside pressure" brought to bear, the memorial would have passed by an overwhelming majority.

Congress can rest assured that it cannot confer a more desirable favor on the people of Nebraska than to credit the Territory with its amount of war tax, and withhold the Legislative appropriation. Mr. Daily can do nothing more satisfactory to his constituents than to urge and secure the concurrence of the Senate in the action of the House.

Grain Inspection.

The following grades and requisits of the different kinds of grain are now in force in Chicago:

Wheat.—No. 1 White Winter.—The berry to be plump, well cleaned and free from other grains.

No. 2 White Winter.—To be sound, but not clean enough for No. 1.

The same remarks apply to No. 1 and 2 Red Winter.

Rejected Winter.—All unsound, unmerchantable wheat, and to weigh less than 45 pounds to the measured bushel.

Extra Club.—To be sound, well cleaned, and to consist of pure wheat, weighing not less than 60 pounds to the measured bushel.

North Western Club.—To be sound, well cleaned, and to comprise all kinds of bright amber colored Spring Wheat, weighing not less than 59 pounds to the measured bushel.

No. 1 Spring.—The berry to be plump, well cleaned, free from other grains, and to weigh not less than 59 pounds to the measured bushel.

No. 2 Spring.—To be sound but not clean enough for No. 1, and to weigh not less than 56 pounds to the measured bushel.

Rejected Spring.—All unsound, unmerchantable Spring wheat, and to weigh not less than 45 pounds to the measured bushel.

Corn.—No. 1 to be clean and sound; No. 2 to be sound, but too dirty for No. 1; rejected, unsound or very dirty.

Oats.—No. 1 to be clean and sound; No. 2 to be sound, but too dirty for No. 1; rejected, unsound or very dirty.

Evacuation of Corinth, Miss.—A Skirmish near Stafford courthouse—Movements on the Upper Potomac—Enlistments Stopped till further orders—Rebel Plans Discarded—Report from Beauregard's Army—From General Bank's Column—From Pt. Royal.

Intelligence from Island No. 10.—Col. Roberts, with 50 picked men of the 42d Illinois, went on an expedition to the upper rebel battery. On their arrival they were fired on by the sentinels, who immediately fled; our men then landed and spiked all the guns of the battery—six sixty-four and thirty-two pounders. The expedition returned safely, not a man having received a scratch.

Washington, April 3. The steamer Atlantic has arrived from Port Royal. Among her passengers are General Sherman and staff. Advice from Jacksonville, 1st, state that an attack was expected there from two Mississippi and one Florida guerrilla regiment, a battery and troop of horse, but Gen. Wright is confident of sustaining himself. The rebel yacht America has been raised by our naval forces and with the steamer Daylight is a prize.

Washington, April 6th. It has been ascertained that the rebel leaders are grievously disappointed and disconcerted by the change of program in the disposition of the army of the Potomac. They thought it was to be withdrawn from this vicinity, and had arranged a program for a bold dash across the Potomac above Washington and a foray upon the capital through Maryland. Gen. Jackson's command was to lead this enterprise, to be supported by Smith and Johnson's forces.

It was expected that the rebel sympathizers in Maryland would raise the standard of revolt there, and aid the execution of the project by destroying railroad

bridges, thus leaving Washington isolated from reinforcements by Union troops.—But the rebel leaders reckoned without their host, and were taken by surprise at finding General Banks within supporting distance of General Shields when the attempt was made to execute the first part of their program. The repulse of Jackson and the creation of two new departments in Virginia, under command of Generals Banks and McDowell, convince them that no vulnerable point has been left unprotected. The Maryland sympathizers who were emboldened to insolence at the prospect of this bold feat of the rebel army have become disheartened and are leaving by scores. A number have been arrested in their attempt to escape South, and others who were known to have organized for the occasion, are seeking a way Southward in small parties.

Borbic diseases are the parent stock from which arise a large proportion of the fatal malarial and malarial fevers.—They are as it were species of rot in the human constitution, which undermines and corrupt all the sources of the vitality and health of the body. They are the germ from which spring Consumption, Rheumatism, Heart Disease, Liver Complaint, and Rupture Diseases which will be recognized as among those most fatal and destructive to the race of men. So dreadful are its consequences to human life, that it is hardly possible to over estimate the importance of an actual, reliable remedy, that can sweep out this detestable contamination. We know then we shall claim welcome news to our readers of one from such a quarter as will leave little doubt of its efficacy—still more welcome, when we tell them that it really does accomplish the end desired. We have the honor to acknowledge the receipt of a copy of your valuable medicine. It is certainly worthy the attention of those who are afflicted with Scrophulous or syphilitic complaints.—Register, Albany, N. Y.

NEW YORK, April 5. A special dispatch to the Philadelphia Inquirer, dated Middleburg, Va. Baltimore, April 4th, says Col Geary's advance encountered three hundred of Stewart's and White's cavalry and a force of infantry at Middleburg, Virginia, last Saturday, and drove in the rebel pickets outside of Middleburg, when he entered the town and discovered the infantry in retreat, and the cavalry posted to make a stand. A gun was placed to command the main street, and the Twentieth eighth regiment advanced by all the approaches to the town, while the main body rushed through it with bayonets fixed and on a double quick, driving the enemy before them.

Col. Geary dashed at the head, and was at one time within two hundred yards of the rebel cavalry. Col. Geary's command scoured the country as far down as Aldie, from which place it returned as far as Sinclairville, to assist at Winchester, but the battle was decided before it could get further.

POST OFFICE DEP'T, April 3. The Post Office Department deems it advisable that all letters addressed to officers and soldiers of the Potomac, whether near Washington or moving South, should be mailed to Washington City. From that office they will be properly forwarded in separate packages to the respective corps and divisions, and their delivery facilitated. Commanders of divisions are requested, as movements occur, to cause notice to be given to the Postmaster at Washington of Washington, to what convenient point such packages destined to regiments under them shall be sent.

JNO. A. KASSON, First Ass't P. M. Gen.

All officers on recruiting service have been ordered to their regiments, and notice given to the Governors of States that no new enlistments or new levies will be received until further order from the War Department. The force now in the field is deemed sufficient for the suppression of the rebellion and the speedy termination of the war.

CHICAGO, April 6. A special to the Post from Cairo says that Daniel Wright, formerly a sailor from Oswego, arrived here to-day, having deserted from Beauregard's army a week since. He says about 60,000 troops are at Corinth, but there are no heavy guns or field works there.

One regiment was under arrest for disloyalty to the rebel cause. Their army is represented as in a state bordering on insubordination, and our informant thinks they will stampede if attacked.

EDENSBURG, Va., April 5. The enemy attempted to retard the operations of our bridge builders to-day, but we shelled them off. One of the enemy's videttes was killed 600 yards distant by a sharpshooter of the Wisconsin Third.

The enemy are encamped near Mount Jackson. The positions occupied by our advance batteries, commanding all the elevations beyond Stony Creek, were selected by Gen. Banks, on Tuesday, amid the hottest fire of the enemy.

Jackson's force is principally composed of impressed men, who refuse to fight against the United States. Those from Page and Rockingham counties retired to a point between these two counties, and there entrenched themselves, defying Jackson's attempts to compel them to join him.

NEW YORK, April 6. The steamer Atlantic has arrived from Port Royal. Among her passengers are General Sherman and staff. Advice from Jacksonville, 1st, state that an attack was expected there from two Mississippi and one Florida guerrilla regiment, a battery and troop of horse, but Gen. Wright is confident of sustaining himself. The rebel yacht America has been raised by our naval forces and with the steamer Daylight is a prize.
