Scarbutic diseases are the parent stock from which arises a large proportion of the fatal maladies that afflict mankind .- They are as it were a species of potato rot in the human constitution, which undermines and corrupt all the sources of its vitality and hastens its decay. They are the germ from which spring, Consumption, Rheaumatism, Heart Disease, Liver Comif the party fail to give bond and surety, then plaints, and Eruptive Diseases which will be recog nized as among those most fatal and destructive to the races of men. So dreadful are its consequences to human life, that it is hardly possible to over estimate the importance of an actual, reliable remedy, that can

then we shall proclaim walcome news to our readers of one from such a quarter as will leave little doubt of its efficacy-and still more welcome, when we tell them that it really does accomplish the end desired. We AVER'S SARSAPARILLA, and it is certainly worthy the attention of those who are afflicted with Scrofuls or scrofulous complaints .- Register, Albany, N. F.
