The wine is of a very supecher quality being about one-third stronger than other wines, warming and invigorating the whole system from the head to the feet. As these bitters are tonic and alterative in their character, so they strongther and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation, removing the obstructions and producing a general warmth. They are excellent for diseases and weakness peculiar to Females, where a tonic'ls required to strengthen and brace the system.
