DAY SCHOOL BELL .- This book is eminently adapted to use in our common schools. We have a great number of school song books before the public, but many of them lack musical as well as literary taste, and are really demoralizing in their influence upon the musical talent of the young. Airs of acknowledged excellence, wedded to words of true poetry, are the qualities that ought to be sought with the greatest care in the preparation of a school song book. This book seems to combine these two qualities .- Pennsylvania School Journal. HORACE WATERS, Published by

FRENCH'S CONICAL Machines.

The most simple, durat le, convenient and economical article ever invented for the purpose.
Will do the washing of an ordinary family before breakfast, not only saving time, but clothes. The Economy of Using

FRANKLIN Family Sewing Machine.

These machines make the celebrated GROVER & BAKER STITCH, which has taken the highest premium at the Illinois State Fair, in September last, at the United States Fair in St. Louis, in 1860, and at the principle State Fairs throughout the country.

Competent Judges gave a decision in favor of this stitch, on account of its great strength and adaptation to all kinds of family and manufacturing purposes.

The following Table will show the difference in favor of Sewing Machines over the old method of stitching by hand. In the working of these Machines there is not only a great saving of labor and time, besides adding greatly to the healthfulness of the employmen , but the stitch is much stronger, more elastic, and less liable to rip or ravel than the stitch made with shutles and

The Franklin Family

SEWING MACHINE,

Has one advantage which is worthy of especial attention in addition to the peculiar character of the stitch, and that is its adaptation to either light or medium heavy work. The Machine which at one moment is used on THE MOST DELICATE FABRIC, in a few moments after can be brought to bear with the same facility on cottonades and towels of the coarsest description. Its adaptation for FAMILY WORK, is thus remarksble, and gives it a superiority over every other style of machine in the Market. In order that these Machines may be placed in the hands of all classes, we have reduced the price of our FRANKLIN FAMILY MACHINE TO FORTY

DOLLARS. From the increase of our business for the last year, and the entire satisfaction our Machines are giving throughout the United States and European Countries, we are led to believe that our determination to manufacture a PERFECT, SIMPLE, RELIABLE AND CHEAP MACHINE, has been fully appreciaten by the public. This policy will remain unchanged, and as heretofore no Machine will be allowed to leave the office that we cannot fully warrant in every respect .-We shall keep on hand at all times a general assortment of Sewing Machine materials Needles for all machines can be ordered by Mail or Express. Price One Dollar per dozen. Persons in the country, by sending us their address enclosing a letter stamp, can have forwarded by return mail, one of our circulars containing the different styles of Machines, list of prices, and sample of work.
