ALLEN PERCY. It was a beautiful lady, richly dressed; A velvet mantle shrouds her snowy-breast; And a young child is sweetly slumbering there.

Fall Plowing. Too little regard is paid in this country to advantages that are to be derived from plowing heavy lands in the fall of the year.

Preparing for the Sugar Crop. Thousands of acres of Chinese Sugar Cane are now growing in Ohio, Illinois, Indiana, Iowa, Kansas, Nebraska, and even in California.

Pruning Trees at Time of Transplanting. Here is a mooted point, with something to be said on both sides. Certain theorists declare that a tree should not be pruned at the time of transplanting.

How Mist is Generated. The production of mist is the subject of a note by the veteran Dr. John Davy, (brother of Sir Humphrey) in the Edinburgh Philosophical Journal.

SOLDIER'S PAY.—The Russian soldier receives annually only thirty-six dollars per year as pay, and his relations consist solely of black bread.

How to Judge Weather Signs. Admiral Fitzroy, in his instruction to meteorological observers, is careful not to cut off any source of information, as he especially notes that the observations of nature are to be watched.

A poorly made, light mill, is little better than nothing—often worse.—When the cane was first introduced, hand mills were to do the crushing, but with two strong men at the cranks, it was found that but a small portion of the juice was extracted.

The Best Bed. Of the eight pounds which a man eats and drinks in a day, it is thought that not less than five pounds leave his body through the skin.
