C. H. SCRIVEN, General Advertising Agent, and Dealer in...

MATHER & ABBOTT, Agents for the State of Nebraska...

JOE COE & CO., Dealers in Ink and Stationery...

General communications are unavoids left out this week.

Mr. Thompson spent a few days at home during this week.

Of the tax collected in this Territory, will be from whisky dealers.

We will publish next week a letter from Private in company "C," Nebraska Second.

F. Lesbaugen, Agent for the Nebraska Indians, spent a few days in this week.

Gen. Thayer—We are gratified to hear that Col. Thayer, of the Nebraska First has at last received a commission as Brigadier General.

The Deputy U. S. Assessor, for this Territory, is now assessing the property in this Territory. There is but little property in Nebraska that is not exempt by law.

Content from DAKOTA.—There will be a contest in the next Congress, between Jayne, (Rep.) and Todd, (Dem.) seat as D. delegate to represent Dakota. Dakota must suffer the same of being disgraced by fraud and illegality as Nebraska, Kansas and Minnesota. A portion of the first settlers of these Territories have no more scruples committing perjury than eating a snake, and it is not strange they should be little illegal voting. In this Territory we are becoming more civilized.

Coal as fuel.—Mr. Deuser has sold his stock of Coal Stoves, since Mr. Middleton commenced the use of coal. The coal used is brought from Pawnee county. There are, however, several kinds of coal equally good discovered in this county, but heretofore the demand had not been sufficient to induce any one to open them.

Money for December.—This is a beautiful number. The embellishments are, "Found in the Snow," a net and silver plate; "Christmas," a net plate, containing seven distinct scenes; a Bride Fashion-plate, containing seven figures, beautifully colored; preparing for the Christmas Party," a net engraving; Royal Tiger Slippers, printed in six colors; Cloaks, Head-dresses, Embroidery and Braiding Patterns, and warm Crochet articles for winter use are given in abundance.

Death of Gen. Mitchell.—Gen. Mitchell died during last month in South Carolina of Yellow Fever. He was not one of our most able Generals, but was one of the most thorough scientific and profound thinker of the age — was a native of Kentucky, a graduate of West Point, and for the last twenty years distinguished as an astronomer. Several years he practiced law in Louisiana. He afterwards became Principal of the Observatory of that City. He was also distinguished as an Engineer.

It is common for women to regret that they are not men. The sphere allotted them, both by nature and by society, is so narrow, there is but little opportunity for them to acquire power, or accomplish great deeds of valor. In the following verses the author expresses the universal sentiment of women. It would be so fine to be a tall soldier, and to win laurels, and a name in history, by gallantly fighting for freedom. The idea of "setting the world free," may be, by some, considered a little radical—just what might be expected from a Yankee school mistress. The writer is, however, a native of the South, and of a family that should consider conservative. The sentiments contained breathe the purest patriotism.

[For the Advertiser.]

A woman's Musings.

Arise each morn'g Nebraska's hills, And join our Union hand.

To drive the rebel out of sight, And live in Freedom's land.

Oh how I wish I was a man, A soldier I would be;

Denote my life to Uncle Sam, And set the negro free.

I'd wear a bright red-and-white blouse, They look so very neat;

And put some very smart, And set the negro free.

Oh how I wish I was a man, A soldier I would be;

Denote my life to Uncle Sam, And set the negro free.

I'd wear a bright red-and-white blouse, They look so very neat;

And put some very smart, And set the negro free.

Peterson's Magazine.

We are in receipt of this popular Lady's Magazine for December. It is a splendid number. The title page for '63, containing portraits of the chief contributors, is very handsome. "Peterson" will be greatly improved in 1863. It will contain 1,000 pages of double column reading matter; 14 steel plates; 12 colored steel fashion plates; 12 colored patterns in Berlin work, embroidery or crochet, and 900 wood engravings—proportionately more than any other periodical gives. Its stories and novelties are by the best writers. In 1863, four Original Copyright Novels will be given. Its fashions are always the latest and prettiest. Every neighborhood ought to make up a club. Its price is but Two Dollars a year, or a dollar less than Magazines of its class. It is the Magazine for the times. To clubs it is cheaper still, viz:—three copies for \$5, five for \$7.50, or eight for \$10. To every person getting up a club, the Publisher will send an extra copy gratis, as a premium, or a large sized mezzotint for framing. "Bunyan parting with his Blind Child in Prison." Specimens sent (if written for) to those wishing to get up clubs. Address, Post-paid, CHARLES J. PETERSON, 303 Chestnut Street, Philadelphia.

EXCELSIOR BURR STONE MILLS,

(FOR FARMERS AND MILLERS.)

ANTI-FRICTION HORSE POWERS.

TOOK THE FIRST PREMIUMS at WESTERN STATE FAIR last year, and are now considered superior to all others. The mill may be driven by horse, water, or steam power, does its work as well as the flat stone mill in milling establishments, and requires but one-half the power to drive the largest size. They are very economical, perfectly simple and for farm use will last THIRTY YEARS, and cost nothing for repairs.

Price \$100, \$140, & \$170. Flour Bolt for smallest Mill \$30 extra.

THE HORSE POWER

Has proved itself to be the best ever invented. It is all bearings, that the whole weight of the castings run upon them. THREE POUNDS BURRAUGHT, at the end of a ten-foot lever, will keep the power in motion 100 times per minute, with the strength of the horse to be used on the machine to be driven. ONE HORSE will do as much work on his power, as two on the endless Chain Power. IT IS PORTABLE, and may be used in the barn as well as in the house. More than TWENTY-FIVE PER CENT of horse labor is saved over ANY OTHER now in use. It is simple in construction, and not liable to get out of order.

Price of power for 1 to 4 horses..... \$125. Price of power for 1 to 4 horses..... \$175.

The \$125 Power will drive any Thrashing Machine, every Machine in use, and give perfect satisfaction, if the money will be refunded.

GENL.—With two horses on your Anti-Friction Power, we drive your No. 1 Mill, grinding 15 Bushels of CORN PER HOUR, and cut a large quantity of hay at the same time. I have never seen a power that runs with so little friction, and consequently with so little strain upon the horse.

W. P. COOPER, Sept. 13th & 15th St., Pa., R. R. Co.

Closter, N. J., Jan. 29, 1862.

Messrs. Excelsior Horse Powers, GENTS.—I am very much pleased with the Power. It runs easier than any other Power in this vicinity; and with the same horse will do nearly, or quite twice as much work. I run my Thrasher at 1,200 revolutions per minute, and a 24 inch Cross-cut Saw, at 1,200 revolutions.

Yours truly, PETER J. WHITTS.

FOR ALL ORDERS RECEIVED BEFORE OCT. 15, 1862 THE FREIGHT WILL BE PREPAID TO CHICAGO, OR ANY OTHER PORT ON LAKE MICHIGAN.

Liberal discount to dealers. Agents wanted. Name, County, and Ship-Rights for sale.

For further information send stamp to Illustrated Circulars to BENNET BROTHERS, 47 and 44 Green-St., New-York.

NEW MUSIC.

"Shall we Know Each Other There?" Song of Duet and Chorus, by Rev. Mr. Thayer, author of "Sabbath Bell's Tune." This song is good—free of all taint of profanity. A pleasing attendance to try our music.
