The spirt of the sonus is unexceptionable and well adapted to the school room. It is the cheapest and among the best ompends of school music published .- New York Teacher.

DAY SCHOOL BELL .- This book is eminently adapted o use in our common schools. We have a great number of school sopg books before the public, but many of them tack musical as well as literary taste, and are really demoralizing in their influence upon the musical talent of the young. Airs of acknowledged excellence, wedded to words of true poetry, Treasury Notes and Notes of all solvent banks taken are the qualities that ought to be sought with the greatest care in the preparation of a school song book. This book seems to combine the two qualities .- Pennsylpania School Journal. HORACE WATERS. Published by No. 4. 'iroadway, New York.

EXCELSIOR

ANTI-FRICTION HORSE POWERS. TOOK TEN FIRST PREMIUMS at WESTERS STATE FAIRS last year, and are justly considered superior to all others. The mill may be driven by horse, water, or steam power, does its work as well as the flat stone mills in milling establishments, and requires but one-half the power to drive the largest

sizes. They are very compact, perfectly simple, and for farm use will last THIRTY YEARS, and COST NOTHING for repairs. PRICES-\$100. \$140; & \$170. Flour Bolt for smallest Mill \$50 extra.

THE HORSE POWER Has proved itself to be the best ever invented .-The friction is reduced by IRON BALLS, so arranged in all the bearings, that the whole weight of the castings runs upon them. THREE POUNDS DRAUGHT, at the end of a ten feet lever, will keep the power in motion! thus permitting the ENTIRE STRENGTH of the borse to be used on the machine to be driven. One House will do as much work on this power, as Two on the endless Chain Power. IT IS PORTABLE, and may be used in the FIELD as well as in the house. More than TWENTY-FIVE PER BENT of horse flesh is saved over ANY OTHER NOW IN USE. It is simple in construction, and not liable to get out of o.der,

the money will be refunded. REFERENCES. Manhattan, Kan. B. F. GRIFFIN, Philadelphia, Penn. GENTS .- With two horses on your Anti-friction Power, we drive your No. 1 Mill, grinding 15 Buss-ELS OF CORN PER HOUR, and cut a large quantity of hay at the same time. I have never seen a power that runs with so little friction, and consequently

The \$125 Power will drive any Threshing Machine.

with so little strain upon the horses. W. P. COOPER, Supt. 13th & 15th St. Pass. R. R. Co. CLOSTER, N. J., Jan. 29, 1862. MESSES. BENNET BROTHERS, GENTS.-Lam very much pleased with the Power. It runs easier than any other Power in this vicinity; and with the same horses will do nearly, or quite twice as much work. I run my Thresher at 1,500 revolutions per minute, and a 24 inch Cross-cut Saw, at I 200 revolutions. Yours traly, PETER J. WHITE.
