McCORMICK' Reaper and Mower

> NUFACTURED AT cago, Ill. time is by all odds the BEST CUTTER IN THE WORLD C. H. McCormick & Bro. man-8,000 per year, Many changes

ing the past season, and for 1863 presented with greater attractions As a reaper, ONOMY OF POWER IN THIS MACHINE, PTS strength, Durability, and Simplicity,

e la preference over all others New Improvement ided have materially lessened the direct draught, so obviated the side draught that many assure us is so light that in numerous instances the large four horse machine is worked with but two horses. FOR MOWING.

The Machine of 1862 will stand any test that may be applied. Our Guard and Patent Cleaner effectually prevents choking, no matter what the condition of the grass, while our new divider point separates baidly odged and tangled clover or grass, where other ma-There is also a great advantage in our serrated sickle edge over the smooth, as it does not require sharpening while the smooth edge must be ground once each day f not oftner. With a smoth edge the fraught increases as the knife becomes duil. Our draught is uniform and in the repeated trials during the season of 1880-61 proved far lighter than single Mowers, cutting at the same time from twelve to eighteen inches wider. Our Mower can be used with or without the reel, this

In addition to the very liberal warrantee given to all purchasers, we would say as heretofore, that farmers who may desire it, are at liberty to work our machine through the harvest, with any other, and keep and pay for the one preferred. Pamphlets with full description of improvement timonials, &c., can be had by application to

simportant, as without the reel it weighs but about
