MASS MEETING.

## UNION LEAGUE.

Do not forget to attend the Mass Meet ing in Brownville, on Saturday, May 2d. We had intended to publish in this paper the Constitution, By-laws, and Pledge of the "National Union League of Cincinnati;" but we have not room this week. No friend of his country will object to any of its provisions, or to the strong grounds taken against the enemies of free government. It is, in short, a platform upon which all true patriots may unite-a banner under which all may battle for our glorious Constitution against the assaults of foreign foes or domestic traitors.

Several Distinguished speakers will be in attendance. Let all Union men turn out. Devote one day to you country.

### Fasting and Prayer.

President of the United States as a day of fasting and prayer. There will be religious service at the First Presbyterian Church at half past ren. A sermon will be preached by Rev. A. G. White. Citizens are all invited to attend.

### We Take it all Back.

A few week ago, in noticing the change in the editorial department of the Omaha Nebraskian, we expressed the belief that its tone would be somewhat changed; that Mr. Reynolds, though a "Democrat, was not a Copperhead." But the leading articles in that paper, since he became editor, has induced us to change our opinion. We beg pardon for having Reynolds may deny being a secessionist-they all do that. There is perhaps not a fugitive from Price's army in Nebraska, who will acknowedge that he now has any sympathy with the rebels; nor do we believe that Mr. Reynolds is really a rebel, or that he desires their success; but he, like a great many more, is willing to go with his party, wherever it may lead, even to the bottomless pit. In his paper of County, Iowa, by Gray & Harvey .is inevitable. St. Paul says there is a tion to avoid personalities. They say: time for all things. This is certainly man to prate of Peace. Every man who has even half sense, knows we Six months ago if such an article had appeared in the Nebraskian, Mr. R. would have considered it "deserving contempt and bitter scorn, on account of its disloyal course." Twelve months ago either one of the present proprietors of the Nebraskian, would have denounced, without mercy, any Demcrat who would have hinted at Peace. and would have indignantly denied any affiliation with the Vallandighamers. Mr. R. is quite familiar with scripture. He will pardon us for referring to the parable of the sower .-

"The seed that fell upon stony places where they had not much earth, forthwith sprung up because they had no deepness of earth; and when the sun was up, they were scorched; and
