

Governor Saunders.

On Monday of this week we had the pleasure of a visit from Governor SAUNDERS. His visit was very brief, but during his stay he was called on by many of our citizens and conversed freely about the topics of the day.

The Governor has but little respect for "sympathizers" or pretended neutrals. He says there can be but two parties in this national struggle, either patriots or rebels.

Provost Marshal.

We are informed by Mr. DAILY and also by Governor SAUNDERS that a Provost Marshal will soon be appointed for this part of Nebraska. Many have inquired why the Governor did not appoint a Provost for this county.

The News.

The latest from Vicksburg, Joe Johnson was supposed to be advancing to attack Grant in the rear. No fears were entertained as to the result.

Banks was about to attack Port Hudson and had captured 1,000 prisoners, and the fall of the place was expected.

ARMY CORRESPONDENCE.

From the Nebraska Second Cavalry. HEADQUARTERS SECOND NEBRASKA CAVALRY, CAMP COOK, DAVOTA TERR., May 27th, '63. EDITOR ADVERTISER: I see by the last issue of the Advertiser that we received, that you did not know our exact location. I would have informed you of our place of encampment ere this, had I not supposed others would have done so.

I think the valley in which we are encamped is the most beautiful one I ever saw. The soil is a rich, sandy loam, with very little lime in, from which fact it will not produce very good wheat. There is plenty of timber along the shores of the Missouri and Sioux, of the very best quality.

The following letter was not written for publication. We took the liberty, however, of putting it in type. It was set for last week's paper, but was crowded out.

ST. JOSEPH, Mo., May 24. T. R. FISHER.—Dear Sir: It is a bright, beautiful, Sunday morning; now and then throngs may be seen passing or sauntering through the streets in their holiday attire.

Some member of the Nebraska Second is responsible for the following: PROBLEM:—If corn is worth two dollars and a half per bushel in Sioux city, what is whiskey worth at Devils Lake?

expedition. It would hardly pay government to take us much farther, as our time of enlistment will expire before we could gain a destination or point from which we could act with advantage.

We have a fine lot of Regimental Officers. None that are acquainted with Col. Furnas can doubt his military qualifications, nor the goodness of his heart. With such a commander as him the Nebraska Second could gain unfading laurels if placed in a position where action was necessary.

Col. Furnas and the Adjutant are both sick, but are now improving. Company E has about eighteen on the sick list, but all are getting better.

If anything strange or new occurs, I will inform you. Yours, SECOND NEBRASKA CAVALRY.

FRANK LEBLIE'S LADY'S MAGAZINE AND GAZETTE OF FASHION is on our table. It contains a full-sized cut paper pattern of the new Alexandra Mantilla.

The Second Nebraska Cavalry are now about moving from Camp Cook near Sioux City. They will probably be divided, a portion staying on the east of the river and a portion on the west side.

LADIES REPOSITORY.—For June contains much excellent, instructive reading matter. Also two fine steel engravings. "Rev. James Havens" and "The Old Stone House." Guildford Club. The oldest house in the United States.

There has been considerable excitement here the last week. Charles Mast, a Captain in the Provisional Regiment of Militia, was shot and killed in his own house, when endeavoring to preserve the peace, by a soldier belonging to the Colorado Regiment.

There was then a cessation of hostilities to allow both parties to bury their dead. The battle was renewed on Tuesday—no particulars.—It is stated that but few if any of the water batteries were taken. Shells from Sherman's siege guns can be seen from the fleet to fall in the city.

WASHINGTON, May 31.—The Navy Department have received dispatches from Commodore Porter, which say the expedition under Lieut. Walker, after taking possession of and destroying the works at Hain's Bluffs, proceeded up the river to Yazoo City, where they destroyed three powerful steamers and a ram. The latter was a monster over 300 feet long, 70 feet beam, and covered with four-inch iron plate.

WASHINGTON, May 31.—The Navy Department have received dispatches from Commodore Porter, which say the expedition under Lieut. Walker, after taking possession of and destroying the works at Hain's Bluffs, proceeded up the river to Yazoo City, where they destroyed three powerful steamers and a ram.

eracy and the present rebellion, this order has caused a terrible shaking among the dry bones. A few copperheads have already been sent out upon the route to Dixie, and although it is not known what the result of the present order will be, it is generally suspected that a grand but involuntary Hegira will have to be made to the Southern Mecca, of every man in Northern Missouri who is not willing heartily to sustain the Government in crushing out this accursed rebellion.

RICHMOND, Va., May 29.—A dispatch from Canton, Miss., says, all was well yesterday. Vicksburg still holds out. The Chattanooga Rebel believes Roger's reinforced Grant to such an extent that the army of the Cumberland is in a much weaker condition to-day than since the battle of Stone River.

CHICAGO, June 1, 10 A. M.—The New York Herald's Washington dispatch says Government has no intelligence from Grant's army later than the 26th when Grant was progressing favorably. The silence of the Richmond papers is considered as conclusive that nothing favorable has occurred for the rebels.

As I know nothing more of interest to communicate to you, I will come to a close. Respectful yours, J. J. MARVIN.

Intemperance.

There seems to be some mysterious law of nature regulating the commission of crime and the prevalence of vice. In France, Austria and England, according to the statistics, the number of murders is very nearly the same one year as another. The same is true of other crimes. Sometimes, during years of scarcity of provisions there would be a temporary increase.

A large number of government boats, have recently passed up the river, on their way to the mouth of the Yellow Stone and Fort Benton.

We see it stated in the papers that Hon. E. S. DUNDY, is appointed Judge of this Judicial District.

Five or six boat loads of the Minnesota Indians have gone up the river.

The river is now in excellent boating order.

BY TELEGRAPH.

CAIRO, May 31.—The dispatch boat, New National, from Young's Point, Tuesday P. M., has arrived. There had been fighting on Monday from 6 o'clock A. M., until 9 o'clock in the evening. There was then a cessation of hostilities to allow both parties to bury their dead.

WASHINGTON, May 31.—The Navy Department have received dispatches from Commodore Porter, which say the expedition under Lieut. Walker, after taking possession of and destroying the works at Hain's Bluffs, proceeded up the river to Yazoo City, where they destroyed three powerful steamers and a ram.

on the 29th. Federal officers officers who ought to know, say Grant has no fears of an attack in the rear, and if attacked no harm can be done.

CHICAGO, June 1.—A letter dated Headquarters in field near Vicksburg the 23d, says but little has been effected in the last 33 hours. Over one hundred pieces of field artillery and several siege guns rained shot and shell on the enemy's works yesterday.

CHICAGO, June 1, 10 A. M.—The New York Herald's Washington dispatch says Government has no intelligence from Grant's army later than the 26th when Grant was progressing favorably.

Two companies of one regiment got inside—a few got out again, but most of them were captured. The Forts were filled with infantry. Our artillery has dismounted a few guns and damaged the works in some places, but they are still strong.

New York, June 2.—Rio Janero correspondent says, the Brazilian authorities have placed the commander at Fernando, De Noronha for allowing the Alabama to commit depredations in Brazilian waters. The new commander who was sent to the island protested against the Alabama remaining there and ordered her to leave in a few days.

New York, June 2.—News from Kentucky last night reports the enemy falling back towards Cumberland Gap closely pursued by the Ninth army corps a majority of whom are mounted infantry.

CINCINNATI, June 2.—News from Kentucky last night reports the enemy falling back towards Cumberland Gap closely pursued by the Ninth army corps a majority of whom are mounted infantry.

CHICAGO, June 1.—Memphis papers of the 28th state that the forts remaining in the rebel possession at Vicksburg are very formidable, and command the entire town. Several charges have been made on them with little success. The rebels seem to think their position impregnable.

CAIRO, June 1.—On the 22, eighteen companies of cavalry from Germantown, when a few miles from Lagrange, met the enemy two thousand strong and drove them back. Near Senatobia roads they encountered twenty-five hundred rebels strongly posted on a hill, these were driven across the Tallahatchie with a loss of six killed and three wounded.

MEMPHIS, May 20.—A Gentleman who left Paducah, Miss., on the 28th says, Joe Johnston has twenty thousand men and is moving to attack Grant's rear. He has conscripted every person capable of bearing arms. A large amount of guns and ammunition are expected to arrive at Jackson

on the 29th. Federal officers officers who ought to know, say Grant has no fears of an attack in the rear, and if attacked no harm can be done.

CHICAGO, June 1.—A letter dated Headquarters in field near Vicksburg the 23d, says but little has been effected in the last 33 hours. Over one hundred pieces of field artillery and several siege guns rained shot and shell on the enemy's works yesterday.

A charge was made yesterday morning on one of them, by Stephenson's brigade and were repulsed. Two companies of one regiment got inside—a few got out again, but most of them were captured.

Hudson, and the attack is in progress with prospects favorable for capturing the place and all in it.

CHICAGO, June 2.—The following is the only connected account of the federal retreat at Vicksburg on the 22d, yet published. By two o'clock on the morning of the 22d our artillery fired and destroyed three service magazines in the rebel forts, one on the center and two on the left.

CHICAGO, June 2.—The following is the only connected account of the federal retreat at Vicksburg on the 22d, yet published. By two o'clock on the morning of the 22d our artillery fired and destroyed three service magazines in the rebel forts.

of our captured except those of our wounded who fell into the hands in the fort. Vicksburg by assault will be made, think the place can be reduced in a short time and at a very small sacrifice of life by regular approaches. Then plan will probably be adopted by Gen. Grant. To storm out the garrison would be a tedious operation had the attempt might not be successful in the end. The rebels are reported to have six weeks full supply at Vicksburg. By putting the siege on short allowance they can make the last weeks longer. There is not much danger of an attack in the rear.
