HARPER'S NEW MONTHLY MAGAZINE.

CRITICAL NOTICES OF THE PRESS. The volumns bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice .- Boston Courier. The most popular Monthly in the world ,- New York Observer.

We must refer in terms of eulogy to the high tone and varied excellence of "Harper's Magazine"—a journal with a monthly circulation of about 170,000 copies -in whose pages are to be found some of the choice light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the dally Journal. It has great power in the dissemination of a love of pure literature.—TRUBNER's Guide to American Literature, London.

No Magazine in Europe or America is so well known none has half as many readers; and, we may safely say, none has received so large a tribute of admitrafrom the cultivated classes, that delight in a healthy, diversified, elevating periodical literature .-It is the foremost Magazine of the day. Its fresh leaves, its clear type, its entertaining varity, its severe but just criticisms upon the follies of the times, its clogarity written and instructive a workmanlike manner, which I warrant to give satisart'cles, and its able correspondence, all combine to make it the model newspaper of our country, and ene hat every family must prize. Wherever we go-in rail-cars and steamboats-we find it seized with eagerness, because of its spirited sketches of passing events. We all like to look at the faces of men we have read of, and at ships and forts that have figured in the bloody scenes of war. Of all such men and places, and events, this paper furnishes the best illustrations.
