

THE KNICKERBOCKER MONTHLY:

Literature, Art, Science, Politics, Society.
ANNOUNCEMENT.
The pioneer of American Monthlies will henceforth be known as the KNICKERBOCKER MONTHLY.

It will be the aim of the present proprietor, not only to maintain its former prestige, but to extend its circle of readers, and make it a welcome guest in every American household. It will be the aim of the proprietor to be the most popular and the most useful of all the monthlies published in this country.

It is a literary Magazine, it will not shrink from holding the great political questions of the day, free from all party bias. It will embrace among its miscellaneous contents, notes on current events, reviews of new books, and literary, art, scientific, musical and dramatic gossip; while the "Editor's Table," with which the readers of "Old Knicker" have been so familiar, will be monthly spread with the choicest literary vignettes that can be supplied.

It is hoped that even under the depressing influence of a protracted winter, the veteran Magazine of the United States will reap, in its new and improved character, a plentiful harvest of subscriptions, and maintain, with added force, that position of a literary monthly, which it has held for more than thirty years.

TERMS.
One copy, three dollars a year, in advance, postage prepaid. To the Agents, Five Dollars. To the Publishers, Five Dollars and Fifty Cents. Three copies, Six Dollars and Fifty Cents.

The Knickerbocker and its other 33 magazines will be sent one year for Four Dollars and Fifty Cents. Subscriptions must be sent direct to the office. No collectors are employed.

Single copies will be sent to any part of the United States of Canada, post paid, on receipt of twenty-five cents.

Back numbers may be obtained on application singly or in sets.

New 33 subscribers will be supplied with the back numbers of the new series gratuitously.

A discount of ten per cent. from the prices will be allowed to persons sending "clubs" of ten or more subscribers.

All communications should be addressed to KINAHAN CORNWALLIS, 27 Park Row, New York.

"Unquestionably the best sustained work of the kind in the World."

HARPER'S NEW MONTHLY MAGAZINE.

CRITICAL NOTICES OF THE PRESS.
The volume bound constitutes of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—Boston Courier.

The most popular Monthly in the world.

We must refer in terms of eloquence to the high tone and varied excellence of "Harper's Magazine," a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the best of the daily Journal and the best of the quarterly Magazine.

It has great power in the dissemination of a love of pure literature.—Tribune's Guide to American Literature, London.

No Magazine in Europe or America is so well known; and, none has received so large a tribute of admiration from the cultivated classes, that delight in a healthy, diversified and instructive literary literature. It is the foremost Magazine of the day. The free-trade never had a more devoted champion, nor the million a more enterprising friend, than Harper's Magazine.—Methodist Protestant, Baltimore.

TERMS.
The papers of permanent value which have been published in almost every number render a complete set of Harper's Magazine a desirable acquisition to any public or private library. The Publishers can supply complete sets, any number from the commencement, at any time, and will send any number, by mail, to any part of the United States within 100 miles of New York, for Two Dollars and Fifty Cents. Complete sets, any number from the commencement, will be sent by Express, the freight at the expense of the purchaser, for One Dollar and Fifty Cents per Volume.

One copy for one year, \$3; Two copies for one year, \$5; "Harper's Magazine" and "Harper's Weekly," one year, \$6. An Extra Copy, gratis, for every Club of Ten Subscribers, at \$2.50 each, or 11 Copies for \$25.

Gleanings and Teachers supplied at \$2.50 a year.—The Semi-Annual Volume, Cloth, \$2.50 per volume. Martin Cover, 25 cents each, Net. When ordered to be sent by Mail, Extra Postage will be remitted for postage. The Postage upon Harper's Magazine must be paid at the Office where it is received. The Postage is Thirty-six Cents a year, or Nine Cents for three months.

"The Best Cheapest and most Successful Family Paper in the Union."

A COMPLETE PICTORIAL OF THE TIMES.

HARPER'S WEEKLY.
SPLENDIDLY ILLUSTRATED.
Price Six Cents a Number; \$300 a Year.
Critical Notice of the Press.

It is fresh, lively, its clear type, its entertaining variety, its severe but just criticisms upon the follies of the times, its elegantly written and instructive articles, and its able correspondence, all combine to make it the most popular of our country, and one that every family must prize. Its condensed weekly summary of foreign and domestic intelligence is altogether superior to that contained in any other journal. Being published, too, in a form for preservation and binding, it takes care of its own future, and will be found in future years, welcome a companion for the family and friends as the day on which it was first published.—N. Y. Evening Post.

We would not so often refer to Harper's Weekly if we were not so convinced that it is the best family paper in the United States, and for that reason, and that alone, we desire to see it in every home and out of it a certain kind of literature, which blunts the minds of the readers, violates their taste for sensible reading, and is already bad in its effect upon the mind of the reader. Wherever we go—in rail-cars and steamboats—we find it seized with eagerness, because of its spirited sketches of passing events. We all like to look at the faces of men, we have need of, and as ships and forts that have figured in the bloody scenes of war. Of all such men and places, and events, this paper furnishes the best illustrations. Our future historians will enrich themselves out of HARPER'S WEEKLY long after writers, and painters, and publishers are turned to dust.—N. Y. Evening Post.

TERMS.
One Copy for One Year, \$3.00
One Copy for Two Years, \$5.00
An Extra Copy will be sent to every Club of 25 Subscribers, at \$2.50 each, or 11 Copies for \$25.

HARPER'S MAGAZINE and HARPER'S WEEKLY, together, can be had at any time.

Vols. I, II, III, IV, V, and VI, for the Years 1867 to 1872 inclusive, of HARPER'S WEEKLY, handsomely bound in Cloth extra, Price \$4.25 each, are now ready. The postage upon HARPER'S WEEKLY, when paid in advance at the office where it is received, is twenty-six cents a year.

SELF-SEALING FRUIT CANS!

OF the latest and most improved Styles, cheap
I am prepared to put in gutting and spouting, and all other work of my line at the shortest notice, and in a workmanlike manner, which I warrant to give satisfaction.
August 2, 1862.

A CARD TO YOUNG LADIES AND GENTLEMEN.
The subscriber will send (free of charge), to all who desire it, the Rules and directions for making a simple Vegetable Soup, that will, in from two to eight days, remove Pimples, Blisters, Tan, Freckles, SALLOWNESS, and all impurities and roughness of the Skin, leaving the complexion as Nature intended it should be—soft, clear, smooth and beautiful. Those desiring the Recipe, with full instructions, directions and address, will please call on or address (with return postage) to
THOMAS F. CHAPMAN, Practical Chemist,
831 Broadway, New York.
May 22, 1862.

ILLUSTRATED Scientific American.

The Best Mechanical Paper in the World.
EIGHTEENTH YEAR.
VOLUME VII—NEW SERIES.

A new volume of this popular Journal commenced on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.
No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.
The Scientific American is indispensable to every inventor, as it not only contains the latest descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions of this country. We are also receiving, every week the best scientific journal of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instructions as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. Munz & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and are prepared to act for inventors, for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to the patentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS, AND FARMERS.
The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the latest of the architect and carpenter are not overlooked; all the new inventions and discoveries pertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and farmers will be found in the Scientific American, which information they cannot possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.
To mail subscribers Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent to any part of the country.

Western and Canadian money or Postoffice stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

MUNZ & CO.,
Publishers, 37 Park Row, N. Y.

BROOM CORN WANTED!

JOSEPH SHELLABARGER,
Desires to purchase a large amount of Broom Corn for which he will pay the
HIGHEST PRICE IN CASH.
