

THE ADVERTISER. BROWNVILLE, SATURDAY, JULY 19, 1893. LOCAL.

COUNTY ORDERS AND CITY ORDINANCES. We have a few County Orders, and a few City Warrants for sale.

THE WEATHER.—This for this summer the weather here in Nebraska has been rather cold. It is true we have had a few hot days, but the nights have been almost uniformly cool.

Mr. HARR has removed his Daguerrian Establishment to Corner of main and First street, second story of Mr. Bradley's Block.

Good Cooks.—Ladies, if you would be known as good cooks, and would avoid the mortification of having poor biscuits when you have company, use D. De-Land & Co.'s Chemical Saleratus, and that only. For sale everywhere.

DROWNED.—On Monday last, two sons of John Berg, of Aspinwall, were drowned in the Missouri river. One, John Adam was about nine years, and the other, Jacob, seven years of age. They went in near the Aspinwall ferry to bathe. The smallest boy dived in where it was beyond his depth, when the other went to his rescue, and both were drowned together.

FOUND IN THE RIVER.—Wednesday evening a boy was found floating in the river near Peru. He was caught and brought to the shore, and Sheriff Hughes sent for to hold an inquest over his body. Nothing was known as to who he was, or where he was from. He appeared to be about twelve years old; had on a brown muslin shirt; white home made flannel waste; pair of white and blue striped pants; no shoes, but had on one blue stocking, with a white toe. He was buried near the Ferry landing. He had probably been in the river a week or more.

TURNIP SEED.—A few pounds of the White Sweet Russian Turnip Seed have been left at this office for sale. We can supply those wishing to raise turnips with seed by wholesale or retail. The White Sweet Russian Turnip is said to be a superior kind of Turnip. Those who have any vacant land, should not fail to sow it with Turnips. They will keep the weeds down, do nothing else. There is no crop so cheaply raised as Turnips. No crop yields so abundantly, and they are excellent food for cattle in the winter. It will not do to depend on Turnips alone to feed cattle, as they are not remarkably nutritious, but when mixed with dry food, they keep cattle in a thriving healthy condition. When mixed they are excellent for Milk Cows. A bushel of turnips can be raised with one fourth the expense of a bushel of corn.

METEOROLOGICAL PHENOMENON.—For a week past the atmosphere here has been remarkably smoky, for the time of year. It first appeared last Friday but it was then high up in the air giving the sun a blood red appearance. During the night following, the condition of the atmosphere changed, the wind blowing strong from the Northwest, the air becoming very rare, the smoke settling to the ground, and becoming intensely thick, so much so as to wake some people from their beds. The weather turned unpleasantly cold, and has continued damp and chilly most of the time since. Some days the smoke almost disappeared, at other times it increased, until it became not only sensible to the sight but to the smell. Tuesday evening, a strong wind setting in from the Northwest, blew up smoke until the whole atmosphere seemed a dense fog, and the smell was unpleasant. Towards bed-time the wind shifted to the East, and the smoke almost entirely disappeared.

There has been much speculation as to the cause of the phenomenon. Some suggested that it was the result of a forest fire, but at this season the prairie rarely burns. Others think it came from wheat and stubble fields that were somewhere burned. But there has been too much smoke, and it has extended over too wide an extent of country. We do not know how it has extended, but we hear of it from all parts of Southern Nebraska, Iowa, Kansas, and Northern Missouri. One of the St. Jo. papers attributes it to a "lack of caloric in the atmosphere." The real cause has not yet been found out. The Sioux Indians, during their raid against the Pawnee, set fire to Grand Island, in the Missouri river. This Island is over a mile long; and it seems there is an immense amount of combustible material on it. The destruction of timber is doubtless very great.

The riot in New York City. Brooklyn, July 14.—The wires at New York City are not yet repaired. We have news from the riot up to six o'clock last evening. At that time the mob was reported to have increased to 3,000. It is reported to have been a preconcerted plan for resistance to the conscription, as all the young men on the different railroads remained together with those of the same routes, and marched to the various quarters on third avenue at half past twelve o'clock yesterday morning. The crowd pushed and seized the books and papers, and with violence towards the officers. Some of the buildings were burned. Women were also in the mob, inciting them. Police detachments sent to the ground were overpowered and beaten. Supt. Kennedy was so badly injured that fears are entertained he will not recover. At noon a detachment of the Provost Guard were armed and went in line of battle between 44th and 45th streets. They were quickly surrounded by the mob, which stoned and fired them. The soldiers fired upon the mob, when they were set upon and pursued about a mile. One soldier was caught and beaten to death by both men and women fiends. Another was actually torn to pieces and thrown into a ditch, where the body was later found. Another squad of soldiers arrived, who were also driven off. One was killed and another badly injured. The mob tore up iron fences which they used to arm themselves. About 3 o'clock the procession of ruffians, both men and women armed with clubs, stones, iron, and pistols, marched up First Avenue, threatening all connected with the conscription. The Arsenal was threatened, but the presence of a detachment of the 10th infantry prevented an attack. Howitzers were stationed around the 7th regiment armory, loaded with canister, which were to be used on the first demonstrations. A whole block in third avenue near 43d street, in which were the enrollment stations, was burned down. At 4 o'clock armed men marched down 8th Avenue, groaning for conscription. Gov. Seymour was expected to arrive in the City last evening. Mayor O'Byrne has issued a proclamation against the rioters. Measures have been taken by Gen. Wood which will probably prove effective in quelling the disturbance. Every Negro who has been seen by the mob has either been murdered or cruelly beaten, some twenty have been killed, at least. The scene of the riot is the Irish and Dutch locality.

ALBANY, July 14.—The 3 o'clock edition of the New York Post says, ladies of rioters to-day visited the large manufacturing establishments, forcing laborers to join them and forbidding trading ships. Up to this hour several thousands have been sacked, including Mayor O'Byrne's office, and the mob which seems to be divided into separate crowds, are bent on plunder, pillage and robbery of persons. The merchants have held meetings about a hundred have just met on Broadway to enroll them as a special police. There has been several collisions with the rioters in which they were worsted. Detachments of troops, with two pieces of ordnance under Col. O'Brien, charged on the rioters at 5 o'clock this morning. Three rounds of blank cartridges were fired from the corners, and the mob hastened to disperse, threatening to come back soon with arms. A company of infantry was stationed in Pitts Street when they did, killing several, the rest fleeing.

At 4 o'clock.—The brokers held a meeting this afternoon and organized themselves into companies for immediate service. Similar meetings are being held in different parts of the city—all the stores down town are now closed. Armories, arsenals and all public buildings are fully garrisoned. Some 5,000 effective troops are expected in this city this evening. The mob is quite dense in the City Hall Park, where Gov. Seymour addressed it, stating he had sent his Adjutant General to Washington to request the draft to be stopped, and implored the crowd to respect property and person, and stated all would be made satisfactory. At 8:30 p. m.—All the omnibuses have stopped running. The horse-cars have also stopped, under threats of the mob. A body of infantry and artillery is stationed at the Hudson River railroad depot, to protect from a large mob congregated there. A large pork packing establishment in Washington street, was burned by the mob this morning. A block of nine buildings including a plain block on 129th street, was also burned this morning. The mob took possession this morning of a tenement block on 14th street, but were driven out by infantry, who shot and killed several of them. An affray between a detachment of marines and a body of rioters occurred on Delaware street during the forenoon, which resulted in the death of the latter being killed, and six wounded.

It is understood Mayor O'Byrne has delegated all necessary power to act in the city to Gov. Seymour. The Governor has issued a proclamation reminding the rioters, many of whom he knows wouldn't have gone to such extremes unless apprehensive in justice, that the only opposition which can be allowed is an appeal the courts and that the decision of the courts must be maintained, and the rioters proceedings shall and must be put down. He then calls on the rioters to retire, declaring he will use all necessary force to restore order.

In Yorkville and Harlem the rioters are demolishing houses, and arms have been moved from threatened localities to safe places. The Provost Marshal General has been notified from Washington to suspend the draft. All telegraphic communications east and west has been suspended—the mob having torn down the wires and threatening the lives of those sent out to repair them. The Mayor has prohibited the sale of fire arms, and all such stores are closed.—The day so far has been a horrible one. There had been a fearful riot in second avenue this afternoon in which the military charged and fired several times on the mob, killing 15 and wounding several. Col. O'Brien was captured by the fiends and beaten to a jelly and then hung to a lamp post on the corner of thirty-fourth street and second avenue. A

building in which some twenty armed rioters were, was surrounded by the Police and only one door left for exit. Every rioter as he appeared at this door was beaten to the ground by the Police. The Mob was also defeated by the Police and regulars in fifth avenue, between 35th and 45th streets, a heavy riot is also going on in 10th Avenue.
