THE KNICKERBOCKER MONTHLY:

DEVOTED TO

Literature, Art, Science, Politics, Society.

ANNOUNCEMENT,

The pioneer of American Monthlies will henceforth be known as the

KNICKERBOCKER MONTHLY:

A NATIONAL MAGAZINE OF LITERATURE, ART, SCIENCE, POLITICS, AND SOCIETY.

It will be the aim of the present conductor not only to m'ain its former prestige, but to extend its circle of re ere, and make it a welcome guest in every Americ household. With this view, no labor or expense w be spared in securing the highest order of talent, no ilcde on this side of the Atlantic, but in both hemis heres.

Although a literary Magazine, it will not shrink from boldly discussing the great political questions of the day, free from all party bias. It will embrace among its miscellaneous contents, notes on current events, reviews of new books, and literary, art, scientific, musical and dramatic gossip; while the 'Editor's Table,' with which the readers of 'OLD KNICK' have been so familiar, will be monthly spread with the choicest literary viands the market can supply.

It is thus hoped that even under the depressing influences of a protracted war, the veteran Magazine of the United States will reap, in its new and improved character, a plentiful harvest of subscriptions, and maintain, with added lustre, that position of a first-class monthly, which it has held for more than thirty years.

TERMS.

One copy, three dollars a year in advance, postage prepaid. To the Army and Navy, two dollars. Two copies, Four Dollars and Fifty Cents. Three copies, Six Dollars and Fifty Cents.

The Knickerbocker and any other $3 magazine will be sent one year for Four Dollars and Fifty Cents.—Subscriptions must be sent direct to the office. No collectors are employed.

Single copies will be sent to any part of the United States or Canada, post paid, on receipt of twenty-five cents.

Back numbers may be obtained on application. singly or in sets.

New $3 subscribers will be supplied with the back numbers of the new series gratuitously.

A discount of ten per cent from these prices will be allowed to persons sending clubs of ten or more subscribers.

All communications should be addressed to

KINAHAN CORNWALLIS,
37 Park Row, New York.

"Unquestionably the best sustained work of the kind in the World."

HARPER'S NEW MONTHLY MAGAZINE.

CRITICAL NOTICES OF THE PRESS.

The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of "Harper's Magazine"—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the race monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUDNER'S *Guide to American Literature, London.*

No Magazine in Europe or America is so well known; none has half as many readers; and, we may safely say, none has received so large a tribute of admiration from the cultivated classes, that delight in a healthy, diversified, elevating periodical literature.—It is the foremost Magazine of the day. The fire-side never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant, Baltimore.*

TERMS.

The papers of permanent value which have been published in almost every number render a complete set of HARPER private acquisition to any public library, or library. The Publishers can supply complete sets, now comprising Twenty-five Volumes, will at five cents they will send any Number, by mail. Any volume, containing six Numbers, bound in Muslin, will be mailed, *post-paid*, to any place in the United States within 1500 miles of New York, for Two Dollars and Fifty Cents. Complete sets, now comprising Twenty-five Volumes, will be sent by Express, the freight at the expense of the purchaser, for One Dollar and Eighty-eight Cents per Volume.

One Copy for one year, $3; Two Copies for one year, $5; "Harper's Magazine" and "Harper's Weekly," one year, $5. And an Extra Copy, gratis, for every Club of Ten Subscribers, at $2,50 each; or 11 copies for $25.

Clergymen and Teachers supplied at $2.50 a year.—The Semi-Annual Volumes bound in Cloth, $2,50 per volume. Muslin Covers, 25 cents each, *Nett.* When ordered to be sent by Mail, Eight Cents additional must be remitted for postage. The Postage upon Harper's Magazine must be paid at the Office where it is received. The Postage is Thirty-six Cents a year, or Nine Cents for the months. HARPER & BROTHERS,

Thapest and most Successful aeye..'FePaper in the Union."

PLETE PECTORIAL OF THE TIMES.

HARPER'S WEEKLY.

SPLENDIDLY ILLUSTRATED.

Price Six Cents a Number; $300 a Year.

Critical Notice of the Press.

Its fresh leaves, its clear type, its entertaining variety, its severe but just criticisms upon the follies of the times, its elegantly written and instructive articles, and its able correspondence, all combine to make it the model newspaper of our country, and one that every family must prize. Its condensed weekly summary of *foreign and domestic intelligence* is altogether superior to that contained in any other journal. Being published, too, in a form for preservation and binding, if taken care of as it deserves to be, it will be found in future years as welcome a companion for the family and fireside as the day on which it was first perused.—*N. Y. Evening Post.*

We would not so often call attension to HARPER'S WEEKLY if we were not well satisfied that it is the *best family Paper in the United States*, and for that reason, and that alone, we desire to see it undermine and root out a certain kind of literature too prevalent, which blunts the morals of its readers, vitiates their taste for sensible reading, and is already bad in its effects.—*New London Advertiser.*

Wherever we go—in rail-cars and steamboats—we find it seized with eagerness, because of its spirited sketches of passing events. We all like to look at the faces of men we have read of, and at ships and forts that have figured in the bloody scenes of war. Of all such men and places, and events, this paper furnishes the best illustrations. Our future historians will enrich themselves out of HARPER'S WEEKLY long after writers, and painters, and publishers are turned to dust.—*N. Y Evangelist.*

Scientific American.

The Best Mechanical Paper in the World.

EIGHTEENTH YEAR.

VOLUME VIII—NEW SERIES.

A new volume of this popular Journal commenced on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuit should think of "doing without" the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new mechanics and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions of this country. We are also receiving, every week the best scientific journal of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instructions as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. Munn & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees, for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to the patentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS, AND FARMERS.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interest of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they cannot possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent to any part of the country.

Western and Canadian money or Postoffice stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

McCORMICK'S

Reaper and Mower

MANUFACTURED AT

Chicago, Ill.

This celebrated machine is by all odds the *BEST GRAIN AND GRASS CUTTER IN THE WORLD.* Notwithstanding the misrepresentations of those interested in other machines, C. H. McCormick & Bro. manufacture at the rate of 8,000 per year. Many changes have been affected during the past season, and for 1862 the "McCormick" is presented with greater attractions than ever before. As a reaper,

THE ECONOMY OF POWER

IN THIS MACHINE, ITS

Strength, Durability, and Simplicity,

give it preference over all others New improvements added, have materially lessened the direct draught, and so obviated the *side* draught that many assure us that it does not now exist. The draught of the Reaper is so light that in numerous instances the large four horse machine is worked with but two horses.

FOR MOWING,

The Machine of 1862 will stand any test that may be applied. Our Guard and Patent Cleaner effectually prevents choking, no matter what the condition of the grass, while our new divider joint separates baldly lodged and tangled clover or grass, where other machines fail.

There is also a great advantage in our serrated sickle edge over the smooth, as it does not require sharpening so often, thus saving time. Our sickle will frequently run through an entire harvest without once grinding, while the smooth edge must be ground once each day, if not oftner. With a smoth edge the draught increases as the knife becomes dull. Our draught is uniform, and in the repeated trials during the season of 1860 61, proved far lighter than single Mowers, cutting at the same time from twelve to eighteen inches wider.

Our Mower can be used with or without the reel, this is important, as without the reel it weighs but about 670 pounds.

In addition to the very liberal warrantee given to all purchasers, we would say as heretofore, that farmers who may desire it, are at liberty to work our machine through the harvest, with any other, and keep and pay for the one preferred.

Pamphlets with full description of improvements testimonials, &c., can be had by application to

Agricultural Cauldronan d Steamer.

FOR SALE 221 and 223 South Water Street, Chicago, Ill. Prices, Wood $35, Coal $38, staple sizes—other sizes in proportion, with freight added from factory in New York to Chicago.

The advantages of cooked over raw food is admitted by all. The old way of boiling in kettles is both slow and expensive, so much so that but few men do it. Something more practical must be had. Steam seemes to be the only alternative. The Patentee has retained all the advantages of the Portable Caldron for boiling, and devised means of generating steam sufficient for all purposes. It is simple and practical, and proves a PERFECT SUCCESS.

THE HARP OF FREEDOM.

Now ready, a new and superior collection of Anti-Slavery, Patriotic, and "Contraband" songs, solos, duets, quartets, and choruses. Most of the Poetry and Music has been written expressly for this work, to correspond with the times, and should be sung by the million, in order to awaken a due interest in behalf of the "Contrabands," whom God in his providence, has cast upon the Free North to clothe and educate.

CONTENTS, IN PART.

"Fair Freedom's Morn has dawned at last." "Break the Chains, or the Emancipating Sword." "Fremont is Marching on, or, Glory Hallelujah." "Oh! Help the 'Contrabands'." "Old John Brown's Song." "Song of the 'Contrabands'." "O Let my People Go." "Parody on the Song of the 'Contrabands'." "Where Liberty Dwells is my country." "When Slavery dies there'll be Freedom." "Wake Freemen, God has spoken." "Whittier's supposed Song of Freedom," etc.

Price only 5 cents single, 50 cents per dozen, $3 per 100; postage 1 cent.
